HARDING PRIMED FOR LAST SPEECH OF HIS CAMPAIGN

By Floyd MACGRIFF,
International News Service Staff
Correspondent.

AKRON, O., Oct. 20. — A series of impromptu platform speeches were to be delivered today by Senator Warren G. Harding, Republican presidential candidate, en route to Cincinnati, where tonight he will deliver his last but one prepared address before election. He planned to review tonight what he declared to be the "improvement" of the Democratic administration and to outline the Republican plans for retrenchment and reconstruction, along both national and international lines.

VIEWED WITH OUTLOOK
Senator Harding's campaign party left Akron before breakfast, quite satisfied that this section of the Ohio was amenable this year to Republicanism.

The senator was more than impressed by the patience and enthusiasm of the Akron audience, 1000 of whom had to stand in the jammed armory during the 90 minutes of his address, which dealt chiefly with foreign affairs. There was a large percentage of women and factory workers in the audience and they observed and cheered every announcement by Senator Harding for undetermined American independence of action in conduct of all foreign affairs.

SENTIMENTS CITED
In a sentence his theme was "I want an America that does not take its orders industrially, economically or politically from anybody else in the world."
There was intense cheering when he referred at different times to the Republican declaration that the "United States is not going to submit to dictation of a number of foreign diplomats sitting around a table at Geneva, but that we are going to decide for ourselves what our foreign obligations shall be."

LABOR OPPOSES CHARTER CHANGES

The Alameda County Building Trades Council at its regular meeting Wednesday night in Labor Temple denounced the proposed amendments to the city charter as being "against the best public policy and not entitled to the support of labor."

The amendments were discussed a week ago and submitted to the law and legislative committee of the council. Last night by request of City Attorney Hagan, a representative of his office spoke in favor of the measures. Immediately after the report of the law committee was unanimously adopted.

"We, your law and legislative committee, having considered the proposed City Charter amendments, find the facts as follows:

THREE MEN RESPONSIBLE
"That the prevailing majority of three members of the City Council, aided by the city attorney's office, are and together are the principal powers urging the enactment of these amendments no request or demand for such action having been made by any labor, civic or welfare organization, or by any number of citizens interested in municipal affairs."

"That the proposed amendments deal directly with employment conditions and the working rules affecting over 1400 regular and 100 extra or intermittent employees of the municipality, a very large number of whom hold membership or affiliation with this council or the Central Labor Council. This is therefore labor legislation which prompts and warrants action by this council."

RADICAL CHANGES MEANT
"Amendment No. 1 as submitted takes out of Civil Service chief clerks or office secretaries and is a radical change as they are included. The enactment of this amendment would preclude the occupants of said positions from participating in the existing employees' organizations or in union. It would also deny promotion from the lower rank on seniority and merit. A parallel condition would be had by compelling a craft union to accept and work with a non-union foreman."

"Amendment No. 3 as submitted takes away the existing right of appeal to an impartial board or to a court of justice. The discharging head or commissioner becomes the judge, jury and prosecutor and is clothed with a final power from which no appeal can be taken to the courts of our county or state. This would destroy the working conditions, the promotion system and nullify seniority and pension rights credited to employees for nine years, or since the adoption of the present charter. In fact this amendment destroys the entire fabric of Civil Service. The right of city employees to appeal, to petition and to organize would no longer exist as a right if this amendment is enacted."

Mullins Is Making Whirlwind Finish

Superior John F. Mullins is making a whirlwind finish in his campaign for re-election. Yesterday afternoon he attended several enthusiastic house rallies in the Golden Gate and Locust street sections and addressed an audience of 500 people at the meeting of the Association of Mothers' Clubs and Parent-Teachers' Association in the Hotel Oakland. Mullins' assurance of a continuance of the constructive policy of the present Board of Supervisors was loudly applauded. At right Mullins addressed a large audience in the clubhouse of the United Veterans Association in the Municipal Auditorium and also in the banquet of Auto Livery and Chauffeurs Union, local No. 21, in Moscone hall. He also attended the gathering of the Automobile Society, C. C. C. and C. C. C. house meetings arranged by supporters of good government.

Mullins, in forceful address, warned the people to be watchful of "extraneous and menial" circumscriptions which are sometimes resorted to by political trustees and discredited and repudiated politicians in their mad aims to substitute petty politics for trained business methods in the public service.
"Efficiency and honesty is the people's demand as well as the lowest possible tax rate," declared Mullins, "and not politics. Public office has long ago ceased to be a luring prize for politicians kicked from office to make place for successful men of affairs."

IT COSTS TOO MUCH TO BE SICK

Keep Your Blood in Good Con-
dition and You Throw Off
Disease
**PAY ATTENTION TO YOUR
HEALTH**
No Need to Take Chances With
It. Pepto-Mangan Makes
Rich, Red Blood

When you first feel a tired, all-
gone feeling and look pale, your
blood is losing its quality. Weak,
impoverished blood has no power to
fight disease. It takes red blood to
keep you well.
If you keep your blood in good
condition it will fight off disease.
You will not be such an easy prey
to long and expensive sicknesses.
With this blood you take chances
every day.
There's no need doing that. You
can take Pepto-Mangan and build
up rich, red blood. With red blood
you are able to win in the fight
against prevailing diseases. Try
Pepto-Mangan. It comes in tablet
or liquid form. Take either kind.
The tablet has the same medicinal
value as the liquid. But be sure you
get the genuine Pepto-Mangan. Ask
for "Gude's" and be sure that the
name, "Gude's Pepto-Mangan," is on
the package.—Advertisement.

Resinol
would soothe
that itching skin

The first application of Resinol Oint-
ment usually takes the itch and burn
right out of eczema and similar skin
affections. This gentle, healing oint-
ment seems to get right at the root of
the trouble, and is almost sure to re-
store skin health in a short time.

Society Ladies Adopt New Hair Curling Method

Since the introduction of the sil-
verine method in this country, it has
become a thing of the proper thing
among society women, who have
readily adopted it in place of the
destructive curling iron. The waves
and curls acquired by the new
method are far more natural in ap-
pearance and the hair of course is
healthier and prettier than could be
if the hair were cooked out of it.
The liquid is pleasant to use, being
neither greasy nor sticky. It is a
simple thing to apply with a clean
teeth brush before doing up the hair.
The lovely wavy effect in evidence in
about three hours is all that one
could wish for. It costs little to use
liquid silverine, as a few ounces from
the package will keep the hair in
curl for weeks.—Advertisement.

HUMAN ALARM CLOCK FAILS COP SLEEPS SERENE SIESTA

Investigation into the case of Patrolman Michael Connelly, accused of sleeping two hours while on duty, tends to prove that a fellow-officer forgot to wake him up, according to testimony now in the hands of Commissioner Morse. Connelly, it is said, took a usual noon nap during his lunch hour, and had arranged that a comrade

awaken him at the proper time. The comrade, however, had a sudden rush of business and forgot all about the sleeping Connelly until too late. Connelly has been suspended pending investigation. It is believed he will be returned to the northern station with a request to keep awake.

Appeal of Addicott Refused by State

SACRAMENTO, Oct. 29.—No relief for James E. Addicott, deposed principal of the San Francisco Polytechnic High school, can be obtained through State authorities, according to a statement by State Superintendent of Public Instruction Will C. Wood.

Addicott made a demand on Wood for his salary for the month of September, which he maintained was illegally withheld. The superintendent took the stand following a ruling by Attorney-General U. S. Webb.

Martin Eden Club to Present Three Plays

Produce of the pens of its own members, the Martin Eden club of writers will produce a program of three one-act plays and an opera at the auditorium of the Twentieth Century club in Berkeley on the night of November 23.

The event is designed for the benefit of the Jack London memorial. The three plays which have been chosen are called "The Stranger," "George" and "The Other Woman."

The opera will be "The Harvest Moon." The talent being chosen is semi-professional. Carlton Kendall is general director and Jacques Le Clercq dramatic director.

FOR CIVIL SERVICE JOBS Civil Service examinations will be held December 19 for two positions in the city prison on December 20.

Fire Department Survey Is Proposed

A general survey of the fire department will be started immediately by Efficiency Expert N. W. Cook, with a view to finding how many firemen are necessary to the department and how they should be distributed. The survey will take several weeks, when a report will be tendered the council.

Meantime Commissioner Morse is having cards printed for the new system of card-indexes whereby police officers will report daily on their work. This is the immediate fruit of the Pellgrini case, when a policeman is alleged to have enjoyed a "wet party" on a Monday night and the commissioner knew nothing about it till Friday.

for three electricians on the city dredge, and December 30 for cashier in the city department of revenue and treasury. All these positions are at present being temporarily filled.

Dollar Honored by Chinese Chia Ho

Captain Robert Dollar of Berkeley, San Rafael and San Francisco has received the high Chinese decoration of Chia Ho for his work in securing from the United States government orders for eight ships from China. The distinction is one that rarely goes to any other than the Chinese. General John J. Pershing is another American so honored. The order, literally interpreted in English, means "Bountiful Harvest."

MILLS GIRLS AID PILGRIM PAGEANT
Much enthusiasm is being shown by Mills College students in the approaching centenary celebration of the landing of the Pilgrims at Plymouth 400 years ago. They will take part in the pageant at the Oakland Auditorium Saturday evening and Sunday afternoon. They are being trained under the direction of Miss Elizabeth Rhee Stoner, and her two assistants in the physical education department of Mills. Miss Rosalind Cassidy and Miss Miriam Phillips.
A group of girls dressed as the seasons will portray the glad years and the sad years of American history. This group will open the pageant and usher in the different events in turn. Leading them will be a trio of dancers, the Misses Irene Williamson, Amy Grupe and Dorothy King. The dancers include: Genevieve Anderson, Brunhild Branstad, Jean Ballard, Dorothy Clark, Laura Cassidy, Julia Fattie, Ida Wiltshire, Elizabeth Tucker, Leonora Young, Hweilau Chang, Dor Koa Tzo, Elizabeth Coffeen, Grace Forman, Celia May Jones, Helen Hall, Ruth Johnston, Agnes Lee, Pauline McJain, Frances Miller, Frances Jordan, Sara Lee, Chapman, Catherine Howard, Gertrude Garish, Mary Lee McClosky, Dorothy Crew, Al-muth Arens and Judith Campbell.
JUMPS FROM CAR: HURT
Ilyo Kovacevic, 26, a dishwasher of 225 Eighteenth street, was taken to the emergency hospital today with a badly lacerated face incurred when he jumped from a moving street car at Eighteenth and San Pablo avenue.

BLUE BIRD BUREAU OF THE TRIBUNE
If you have some clothes for youngsters ranging from one to three years, an illustrated Bible, a sewing machine, some blankets, or, last of all, a buggy that will hold twins, the Blue Bird has calls for them all.
The woman who asks for the baby buggy has eleven children, and one of the twins, for whom the buggy is needed mostly, is not strong. Here is what she says:
"I am writing these few lines to let you know that I can't afford to buy a twin buggy for the twins. I have eleven children and one of the twins is very sick. I want to the doctor, and he said that I must keep the baby out, but I can't without a buggy. So if you would kindly get me a twin buggy or one big enough for two, I would be very glad to have it."
The baby clothes are needed for three small children, one, two and three years. The husband and father was injured in the shipyards and will be unable to work for quite a while. His \$13.50 allotment a week doesn't leave very much over for clothes for his small family—and the days are getting colder.
The woman who needs the sewing-machine so badly is getting along in years and has a paralyzed hand to care for and support. She can do sewing if she has a machine, handwork being too hard on her eyes and too long a process.
The blankets are needed by a woman who says:
"I wonder if I can get what I want through you. I want some worn-out cotton blankets. I mean really worn out. I don't care how thin they are, and I am willing to pay a small price, but not much. I can't because they will probably have to be destroyed after a little use. If anyone who can help me, will you please let me know?"
Blue Bird has been asked to assist in a housing problem, and it being a difficult one to solve, appeals to Good Fellows. The applicant explained in her plea that it isn't financial aid she needed, but a place to live. Father, mother and six babies have to move by November first, can only afford from \$15 to \$20 a month, and have no home in sight. They have been living in a store, with no possible way of heating the room, but even that is to be taken from them, as relatives of the owner need the place. If you know of a place for rent for \$15 or \$20 and a landlord who won't object to six good children, will you let the Blue Bird know?
And last of all in this list of "wants" is the request of an old colored woman who wants an illustrated Bible.

OAKLANDERS JOIN CALIFORNIA CREW
When the U. S. S. California starts out on its first cruise its personnel will include many Californians from the Eastbay district, who enlisted last night as a result of the huge naval parade and band concert.
The parade was under the direction of the naval department, the Loyd Order of Moose and the Elks. Its purpose was to stimulate enthusiasm for the dramatic California, which will soon be put into commission.
The parade last night was headed by prominent state, county and city officials, leaving the Hotel Oakland at 7:30 and winding through the downtown district, terminating at the City Hall plaza, where a concert was given by the naval band.
Special guests of the occasion included Admiral A. C. Halsey, Captain C. W. Cole, H. D. Price, E. L. Beach, Commander W. L. Lee, Lieutenant-Commander G. M. Welchett, Railroad Commissioner G. Devlin, members of the city council, and others.

Funeral Is Arranged for Geo. McLoughlin
Funeral services for George McLoughlin, former United States mint employee in San Francisco, will be held tomorrow morning at 11 o'clock, from the dressing room of the Piedmont Interdenominational church, officiating, McLoughlin, who recently retired from the federal employment, after a quarter of a century's service.
He was born in 1852, at his home, 52 Lakewood avenue. He was the father of Maurice McLoughlin, former national and world's single tennis champion. He was 72 years old.

The Value of Dental Work
is not always determined by the price you pay. Some dentists charge as much as \$12 and \$15 for gold crowns that are not any better than the crowns we make. And besides, all of our work is backed up by an office that has been established many years, which, in itself, is worth considering. It will pay you to investigate. Examination free.

Alameda Police Hold Annual Department Ball on Nov. 27
Special Numbers to Precede Dance of City's 'Finest'
ALAMEDA, Oct. 29.—The first annual Alameda police department ball, which is to be held in Neptune auditorium November 27, will be the finest and largest affair that the local bluecoats have ever staged. The committee in charge is arranging a comprehensive program of instrumental and vocal numbers, classic dancing and vaudeville turns to precede the ball.
 Among those who will take a leading part in entertaining the guests of Alameda's "finest" will be Miss Dorothy La Colla, who is the possessor of a full-toned mezzo soprano voice. She is the niece of J. A. Sevina, chairman of the dance committee. Sevina's assistants on the arrangement committee will be Richard Britt and Stanley Loveland. Two other outstanding features of the affair will be the classic dancing of Juliet Weinstein and the prize waltz. The latter event will be an open contest and a number of the handsomest coppers of which Alameda boasts are practicing sly steps as they patrol their beats.

POLITICAL ADVERTISEMENT
WORSE THAN SPOILS
 Theodore Roosevelt, who doubled the Civil Service positions while President, has said in speaking of a non-removal rule similar to that in Oakland, "I regard the proposed law as seeking to establish a condition worse than the spoils system—nothing proposed by Tammany during my lifetime has begun to approach in mischief this proposal."
 Roosevelt probably did not have Oakland in mind, but he could not have characterized any better Oakland's condition under its present non-removal rule.
 Abolish job insurance in Oakland by eliminating Oakland's non-removal rule. Replace it by Federal Civil Service which has been good enough for a half million federal employees, and it ought to be good enough for Oakland.
 Vote "Yes" on number 3 of the municipal ballot.

Cuts, Burns
Hamlin's Wizard Oil a Safe First Aid Treatment
 How often lockjaw, blood poisoning, the loss of an arm or leg, or sometimes even life itself, results from the neglect of a burn or little cut! Hamlin's Wizard Oil is a safe and effective first aid treatment. It is a powerful antiseptic and promptly applied to wounds of this kind will lessen the danger of blood poisoning. Keep it handy. Wizard Oil is a good dependable preparation to have in the medicine chest for first aid when the doctor may be far away. It is soothing and healing and quickly drives out pain and inflammation in cases of sprains, bruises, cuts, burns, bites and stings. Just as reliable too for stiff neck, sore feet, cold sores, chanker sores, earache and toothache. Generous size bottle 50c.
 If you are troubled with constipation or sick headache try Hamlin's Wizard Oil. Just pleasant little pink pills at drugstore for 50c. Guaranteed.—Advertisement.

A Sure Way To End Dandruff
 There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.
 You will find all itching and dandruff of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—Advertisement.

CLERGYMEN WILL HELP MEMORIAL

In answer to an appeal from the ex-service men's committee who are striving for the success of the \$225,000 War Veterans' Memorial club house bond issue, ministers and priests of every religious denomination in Oakland promised to solicit the support of their parishioners for the measure from their pulpits next Sunday.

This promised support, which has greatly encouraged the ex-service men, follows the forwarding of a letter to each minister and priest by Harry A. Nelson, secretary of the mayor's general committee.

TEXT OF LETTER.
The letter reads as follows:
"The committee of ex-service men appointed by the mayor, and representing the various veterans' organizations of Oakland, respectfully request, if consistent, that the following announcement be read in all the churches of Oakland next Sunday, October 31, 1920.

"The mayor and city council of the City of Oakland have unanimously agreed to submit to the voters at the November 2 election the matter of the issuance of bonds by the City of Oakland of the amount of \$225,000 for the purchase of a War Veterans' Memorial building to be devoted to the needs of the ex-service men.

"It is earnestly hoped that the people of Oakland will heartily support this measure, thereby indicating in a very complimentary manner their appreciation of the men of this city who have responded to the call of their country."

This statement as given above was issued by the mayor and city council following their endorsement of the bond issue several weeks ago.

Arrangements were also completed last night for the big parade of sailors next Saturday, which will take place between 3 and 4 o'clock in the afternoon for soliciting public interest in the War Memorial bond issue.

The parade will start at First and Clay streets and will proceed down Broadway to Nineteenth street, along Nineteenth street to San Pablo avenue, down this thoroughfare to Washington, to Twelfth, to Alice and from thence to the Scottish Rite

Cathedral, which is proposed as the War Memorial. Here a band concert will be rendered after which the parade will proceed down Fourteenth street to the city hall where another concert will be given by the Naval Band of 150 pieces and the visiting sailors will receive their supper.

Embrace Repulsed, Wife's Suit Charges

When Mrs. Mabel Nolan tried to embrace her husband he repulsed her with the statement that "you'll have to get over this as you are now an old married woman," she declares in a divorce complaint just filed against Joseph T. Nolan. They were married July 3, 1918. Mrs. Nolan also declares that her husband forcibly ejected her from his brother's store in Sidney, Neb., before strangers, causing her great anguish.

42 HORSES DIE IN FIRE.
BRANDON, Man., Oct. 29.—Forty-two horses belonging to the Royal Canadian Mounted Police were killed in a fire which destroyed the old winter fair building today, with a loss estimated at \$200,000.

Mothers Awarded Ribbons of Merit

Thirty-six mothers in the well-baby clinic of the Baby hospital were awarded ribbons of merit yesterday at the first quarterly baby show, which was arranged by the

hospital heads. The recognition was given to mothers who had followed in detail instructions of the nurses in regard to care for the infants, and whose home conditions and sanitary arrangements were found satisfactory.

Miss Bertha Wright, superintendent, offered the ribbons to moth-

City Can't Interfere in Sale to Japanese

BERKELEY, Oct. 29.—When Mrs. Oliver Parquet, 1341 Stannage avenue, and Mrs. H. H. White, 1325 Carmel avenue, today appeared before the city council to protest the sale of property owned by Mrs. C. G. Hansen at 1339 Stannage avenue to Japanese, Mayor Louis Bartlett told them the city had no power to act in the matter. He advised them

to create public sentiment against such a sale. Mrs. Parquet, who lives next door to the land in question, declared that it was Mrs. Hansen's intention to dispose of it to Orientals.

If you see it in The TRIBUNE, tell them so.

Civic League Women Will Study Cities

By EDNA B. KINARD

Study of cities has been undertaken by Berkeley center, California Civic League. No idle, aimless perusal of this or haphazard consideration of the superficial subjects which may relate to a municipality, but a carefully planned, logically arranged, scientifically framed program which at its end will give to the seriously minded student a historical background on which to base whatever of civic achievement they may desire to attempt.

Mrs. Clarence Haring is the moving force in the study of cities. She is a native of Berkeley and has lived in the city since she was a child. She is a member of the Berkeley Civic League and has been active in its work for many years. She is a woman of high character and high ability, and her work for the Civic League has been of great value to the community.

The outline of the plan was made before the California Civic League at a recent meeting. Its adoption will probably be made by various centers throughout the state.

Mrs. Claude Leech, president of Alameda district, California Federation of Women's Clubs, and ardent advocate of county federation, completed tour this week of Alameda and Tuolumne counties where she went to carry the gospel of this form of organization. The club women of these remote districts are keenly alive to their civic responsibilities and are giving a splendid service within their communities which has reached out in a plea to save the great trees under which they dwell. They have felt the inefficiency of their scattered efforts knit together so closely through the extensive district which includes Alameda Contra Costa, San Joaquin and Santa Clara counties.

Mrs. Leech undertook in her personal visit to each organization to outline the advantages which they would have in a county unit. Alameda county began organization several weeks ago under the urging of the district president, Contra Costa county, previously having tested its value.

Park Boulevard Club will on Monday give its attention to the California Girls Training Home in Alameda, offering the courtesy of its forum to a kindred organization, that of the Big Sisters through Mrs. Grace Hunter who will be the speaker. Clubwomen hereabouts are making many valuable contributions to the young women in the Training Home not the least of which is the placing of them in their ranks of smaller sisters. A second speaker will discuss at next week's meeting the merits of the 12th Amendment to be offered for consideration at the November election. Mrs. F. F. Porter president will preside as chairman.

The town hall in Walnut Creek was thronged on Wednesday night when Mrs. A. E. Carter, campaign chairman of the Women's Legislative Council Community property law, Mrs. Beale Wood Gustafson and Mrs. Frances Wilson, deputy district attorneys presented pleas for Vote Yes on Amendment 13 at a community meeting. The Harris act was discussed by Dr. W. A. Brown.

H. Bonestells Will Be Hosts At Dinner

The Frank Edgerts are to be guests of honor at a dinner given at the Hotel Oakland tomorrow night, when Mr. and Mrs. Horatio Bonestell will be hosts to thirty friends—the married set—practically all of whom who will attend will be given on George St. at 10 o'clock.

The William Thornton Whites, Mrs. Patricia Henshaw, Edna Rickman, Jack Martens and the Percy Murdock.

On Friday Mrs. Jack Marten will entertain for Mrs. Edith asking a group of friends in for bridge.

In compliment to Mrs. Marjorie Edgerts, a native of New York City who is here to spend the winter with her uncle and aunt, Mr. and Mrs. George H. Edgerts, Mrs. Edgerts is planning to take a post graduate course in January at the University of California.

For Mrs. Sydney Down in whose honor a number of affairs are being given this month, Mrs. Down has sent out cards for Thursday afternoon November 4 for a bridge party. The tea is to be given in the Claremont Assembly hall in Hillcrest road. Intimate friends are to assist in receiving.

Mrs. Frederick Stolp and her daughter, Miss Carmen Stolp are now in Los Angeles on a tour from an extended tour of Canada and the western states. They have apartments at the Alexandria Hotel.

ALL SOLIS' CHAPEL. In All Souls chapel the wedding of Miss Lydia Hyde and Lawrence Pagen took place Wednesday evening. Intimate friends and relatives witnessing the service. Rev. M. T. Pagen officiated after which a wedding supper and reception was held at the home of the bride's parents, Mr. and Mrs. Henry Hyde in Claremont. Miss Frances Hyde served as maid of honor for her sister, and a niece of the bridegroom, little Marjorie Cooper, was flower girl. Pagen and his bride will pass their honeymoon in the southern part of the state returning to Berkeley to reside.

Mrs. Pagen is a niece of Mr. and Mrs. George Hyde of Mill Valley. Pagen is a son of the late William Pagen and Mrs. Pagen.

Tomorrow evening Miss Gladys Robinson is to be entertained at the home of Mrs. Albert Edward Young, who will be the hostess. An informal dance will follow the dinner. Tuesday night, a party will be given by Mrs. John Raymond Merkle and on November 12 Mrs. Charles Frost will be hostess.

Mrs. H. D. Hadenfeldt of Berkeley will be hostess tomorrow at luncheon at the Sequoyan Club when she will entertain for her daughter, Mrs. W. B. Wellbush.

Mrs. W. B. Wellbush was a recent hostess at luncheon at Sequoyan Club, entertaining her guests at bridge. DANCE FOR COLLEGE SPT. Miss Mildred Dodge was hostess at a dancing party for a number of the college set last Thursday evening, entertaining at her home in the college city.

Mr. and Mrs. C. L. Anderson have returned from their wedding trip at Del Monte to their home in this city. The marriage of the couple took place at Del Monte.

Mr. and Mrs. William Bissell who are now in the form of a party, Peter B. Kyne, name in Thousand Oaks will give a dancing party this evening at the Sequoyan Club. The guests are the Misses Jane Carigan, Ruth White, Barbara Willis, Adelaide Griffith.

By means of personal notes sent to her most intimate friends, Miss Mary Elena Macdonald, told yesterday of her engagement to Herman Phleger, son of Mr. and Mrs. Charles Phleger of Sacramento. Miss Macdonald is the daughter of Mrs. Atherton Macdonald of Menlo Park.

and a sister of Miss Ynez Macdonald and Ensign Atherton Macdonald U. S. N.

The bride-elect made her debut to San Francisco society last season at a large tea given by Mrs. Edward Eyre, her aunt, and Mrs. Marshall Madison (Elena Eyre) shared the honors. Her aunts are Mrs. Gertrude Atherton, Mrs. Macdonald Moore, Mrs. Perry Eyre, Mrs. Bertha B. Beckett, Mrs. Selby Hays and the Misses Dorothy and Sarah B. Collier.

Phleger is a brother of Charles Phleger. He was a student at the University of California and Harvard University and is a member of the Pacific Union Club.

In London one thousand new motor omnibuses will be placed on the highways next spring.

NEW ELKS' ORDER REFUSED CHARTER

SACRAMENTO, Oct. 23.—Secretary of State Jordan today refused to issue a charter of incorporation to Athens Lodge No. 70, Improved Benevolent and Protective Order of Elks of the World upon its application filed a few days ago in refusing the charter Jordan stated that a protest against incorporating the new order sought to be established has been made by the Benevolent and Protective Order of Elks and unless the courts directed to the contrary, he would not be justified in issuing a charter. The protest of the Benevolent and Protective Order of Elks is based on the ground that the proposed title of the new order is an infringement upon its established name.

MEXICO CITY, Mexico, Oct. 23.—Admirers of General Zapata are arranging to erect a monument in his honor. Zapata while a rebel chief cut off the hands and ears of civilian prisoners who were caught repairing damage his band had done. Hundreds of these unfortunate men and boys are begging throughout Mexico.

Writ Saves Chinese Autoist From Jail

On the grounds that the complaining charging him with violating the speed laws of Piedmont did not say whether he was in a 20 or 30-mile zone, William Quan, Chinese butcher, was today granted a writ of habeas corpus by Superior Judge James C. Quinn, saving him from spending two days in jail in lieu of a \$30 fine. Judge Quinn held that the proceedings before Recorder G. T. Burdick of Piedmont were faulty.

WILL RETURN TO SCREEN. PATTERSON, LA., Oct. 22.—Margarite Clark has announced she will return to the screen.

Mexicans Planning Zapata Monument

Admirers of General Zapata are arranging to erect a monument in his honor. Zapata while a rebel chief cut off the hands and ears of civilian prisoners who were caught repairing damage his band had done. Hundreds of these unfortunate men and boys are begging throughout Mexico.

Epic of the Far North Is Basis of Notable New Play

Scene from "THE LAW OF THE YUKON," adapted from the
Robert W. Service poem, coming Sunday to the American.

Celebrated Poet Furnishes Basis of Photoplay Feature That Sets New Mark in Drama.

"The Law of the Yukon" is the lat-
est sensation in film plays, and
strangely enough, it was not based
on a story at all—but on a poem. But
then, the poem was by Robert W.
Service—who always tells a big
powerful story in his poems of the
Klondike and the Frozen North.
"The Law of the Yukon" is a mas-
terpiece in narrative, and as a film,
depicting life among the pioneers of
the snows, with their own law made
to suit their primitive homes, it is a

L. A. RING'SMALL, SAYS CHIEF.
The day has developed the fact
that the alleged branch of the San
Francisco ring, said to have operated
at Los Angeles, has been a small and
unpretentious affair when compared
to the active and far-reaching or-
ganization that has disposed of in-
toxicants in this city. Nevertheless
something like a panic has occurred
in the southern city where everyone
who is suspected of complicity in
liquor sales is rushing into the offices
of the prohibition enforcement direc-
tor to claim immunity.
E. C. Yellowby, acting prohibition
director, returned from Los Angeles
last night. He has announced that
his organization of deputies is now
practically complete but that his
force of agents is to be increased
materially. The new men will aid in
the work of scrutinizing the permits
for withdrawal which are once more
being issued. Wholesale druggists
and non-liquor liquor brokers
were standing in line waiting Yellow-
by's return.

TO BE HEARD WEDNESDAY.
Harry D. Cooke, the Brooklyn
slut who is held on a charge of
attempting to tamper with a govern-
ment witness, will be given his pre-
liminary hearing on Wednesday.
A new line of evidence said to be
in the possession of United States At-
torney Frank M. Silva, is that a
number of individuals in the city
sought to form independent whisky
"rings" and that they were put out
of business by the larger one which
sought to monopolize the field.
The indictment against Broslaski,
Gamage, Murphy, Newton and
Schulze names the manipulation of
52 barrels of whisky for bootlegging
purposes as the overt act.

"I Want Republican Congress To Help Me," Pleads Harding

AKRON, O., Oct. 29. — Senator Harding in his address here last night made a vigorous plea for the election of a Republican Congress.

"I would not want to be your president unless you are going to give us a Republican Congress to translate Republican promises into enactments," he told his big audience.

Continuing, Senator Harding said: "I know pretty well that the American people are thinking of calling the Republican party back to service in the Nation. The American people have always turned to the Republican party in their hour of anxiety and distress and are turning to it this year for relief at Washington and throughout our government. I have very strong convictions that you are going to elect a Republican President of the United States. But I warn you, don't do it unless you intend to put the Republican party in power in the Congress as well as in the executive office."

UNITED GOVERNMENT PLEDGE

"If I am going to serve you, I want the government with which I am going to serve, and I promise you that under Republican administration the Congress is going to resume its constitutional functions."

"It is very important to have a majority in the United States Senate and you ought always to think of the Senate as saving to you your American liberty."

"Don't be distressed by the so-called Senatorial oligarchy. There isn't any. I think we would have succeeded this year in harmonizing the Senate into a completely useful agent if it had not been for the interference of the Chief Executive, who was not satisfied with running his own end of Pennsylvania avenue."

"We ought to have been thinking more of the Constitution and less of the covenant. We ought to have been concerned with American nationality, not paralyzing internationality. We ought to have been concerned with America's policy for America and not an European policy for the United States of America. We ought to have been giving attention to our problems at home, to putting the American house in order, instead of trying to build a temple of super-government across the sea."

"Oh," they say, "you can not tell where Harding stands on the league."

Well, let me see if I can tell you where I stand. I am at least entitled to speak for myself. I have been speaking since the 2d of last July, and I challenge any Democrat in America, high or low, to find a contradiction in anything I have said.

"I said in the beginning that we were opposed to an armed military alliance with the Old World, and I say so now. I have said frequently, and I say now, that we are never going to have anything to do with Article X in the League of Nations. We are not going to enter into any super-government of the world."

NO FOREIGN INTERFERENCE

"We are not going to allow a couple of foreign powers to dictate to us what we must do to fulfill our obligations. Having made this great Republic ourselves, we still think we are capable of going on and performing our obligations to the world on our own terms."

"I am not going to accept that America does not intend to accept that league. It is true that a member of the United States Senate is attached to the covenant reservations, but where I voted there were attached to the covenant reservations to safeguard the independence of the United States. They were not designed to make clearer our obligations, but to limit our obligations. And the reservations we wrote were aimed upon the world, accepting before our membership in the league should become binding."

NO DISRUPTION OF ALLIES

"America has never failed the world. That is what I mean. I have never had any alliance with them. We did not go to war to remake the world, we went to war to save our present civilization and protect our rights. If we had been making warfare for democracy, we ought to have speeded up a little. If we were making war for humanity's sake, we ought not to have hesitated it until so many of humanity had been sacrificed."

"I believe in keeping out of war, and I believe in keeping out of war not only in campaign years, but in the years between campaigns. I want to see the world approximate to disarmament."

"I can promise you that when we come into power we will seek to put our part, and we will lead the world without in any way sacrificing the essentials of America. Then we will change of our abundance, our influence, our example, any of our own people, or any of the world, to a leading position in the world, to a leading position that looks toward the peace of the world. But I promise you, my countrymen, none of this at the expense of substituting some compromise thing for the sake and stripes of our own United States of America."

President Praises Cox, Expresses His Hope For Success

WASHINGTON, Oct. 29.—President Wilson today addressed to Governor Cox a letter of congratulation on his campaign and expressed his hopes for the success of Governor Cox. The letter was as follows:

My Dear Governor Cox: As the campaign approaches its climax I want to give myself the pleasure of writing to say with what admiration I have followed your course throughout the campaign. You have spoken truly and fearlessly about the great issues at stake and I believe that you will receive the emphatic endorsement of the voters of the country.

As one of those voters and as one of your fellow citizens, I want to express my entire confidence in you and my confident hope that under your leadership we may carry the policy of the national government forward along the path of liberal legislation and to human reform until the whole world again sees an illustration of the whole strength of democracy and the happy fruit of what the founder of the republic purposed when they set this great government up. Allow me to sign myself, Your gratified and loyal supporter, WOODROW WILSON.

LAND-LADY QUICK

TO RIOT TROUBLE

Mrs. E. Harshbarger conducts a large rooming house at 254 1/2 East Broadway, Long Beach, California.

Mrs. Harshbarger tells in her own words just how quickly and satisfactorily she obtained relief from sickness. "I told a friend of mine of the wonderful results she had experienced for similar complaints by taking Vinol. I bought a bottle and within four or five days noticed a marked improvement in the way I felt. After taking only one bottle I feel better in every way, and I am glad of an opportunity to heartily recommend it to others who may have the same complaints that I had."

S. F. BAY BEATS N. Y. IN BUSINESS DONE IN MEXICO

By LOUIS P. KIRBY.

MEXICO CITY, Oct. 28.—New York has lost and San Francisco and Oakland have gained business here aggregating more than \$300,000 (American) annually through apparent ignorance in New York of business methods here. This is surprising, because great New York organizations have been making for years an intensive study of commercial ways in Mexico and other Latin American countries.

A short time ago an agent representing a New York silk house came to Mexico City. He was received cordially. On the first day he looked for business he obtained orders aggregating between \$20,000 and \$25,000 from four of the most solid businesses here.

Delighted—even exultant—the agent hurried the orders to New York, expecting quick delivery because of the high names of the firms that gave the orders and because the Mexican houses had agreed to pay as soon as they received a draft accompanied by bills of lading.

ORDERS ARE CANCELLED. He received a cable message saying that each must accompany the order. He tried for several days to convince the firm that it was safe to fill the orders, but with no success. Then he had to tell the Mexican business men, who immediately cancelled the orders.

Almost within the day of this agent's arrival a San Francisco firm reached Mexico City and heard of the cancelled orders. He at once asked for them, got them and in a few hours received a message from his firm that the orders would be filled and rushed to Mexico.

At the same time the San Francisco agent obtained an order of silk thread amounting to nearly \$200,000 (American) and has the promise of more, as the firms lost to New York are the largest in this country.

A peculiar thing about the orders given to the California man is that the goods are to be sent by way of Vera Cruz, which should be dominated by New York exporters.

To help American business firms to avoid such disastrous mistakes, it is now proposed to establish a credit association here. It is admitted that in the first scramble for Mexican and South American trade, many American firms filled every order that came to them from Latin America and lost considerable sums, as all firms in Mexico are by no means sound.

This fact has been called to the attention of offended merchants here, but they think that American exporters should take the trouble to ascertain the standing of Mexican concerns before offending them by demands for cash.

The Chihuahua Chamber of Commerce has proposed to the Confederated Chambers of Commerce of Mexico the preparation of a confidential business directory of Mexico.

A "black list" containing the names of unsound firms, swindling concerns and other honest agents, which American business firms should be placed on their guard.

EMBARGO USED TO SAVE KULTUR FOR GERMANY

By FRANK E. MASON.

BERLIN, Oct. 28.—The German government has put an embargo on "Kultur." In 1914 we learned that "Kultur" was one of the most valuable of German exports to the world; today Germany by a prohibitive export duty is keeping her "Kultur" at home.

Immense quantities of German books were exported before the war and sent all over the world. No philosophical, medical or scientific library was complete without the German authorities. De luxe editions of Goethe, Schiller, Lessing and other classics were bought by connoisseurs from the Scandinavian countries, England, Holland and Switzerland, not to mention the thousands of volumes which found their way to North and South America.

Tourists in Germany today are warned that they must pay the government 200 per cent tax for the privilege of taking a volume or two of German "Kultur" home with them as a souvenir. You pay 50 marks in a bookstore and 100 marks to the German customs officials, not to mention possible import duties in the tourist's own country.

"Our literature and our books are our best propaganda," complains one of Berlin's biggest booksellers. "If the Versailles treaty had placed the restriction on exporting our thoughts at 100 per cent, we have had to suffer from it. Our own government's indifference to the German press would have attacked the ally for retarding the world's scientific and intellectual progress."

Northern Switzerland, where the German language is spoken, has been the keenest sufferer under the prohibitive tax. Paris publishers are now getting this trade, according to the Berlin book shops.

The government defends the measure as necessary to prevent Germany from being bought out at cheap prices because of the low exchange rate of all her finest and rarest de luxe sets. The publishers reply that they print the books to sell that as long as the merchants themselves have no complaint, to make the government has no business quarreling with the spreading of German "Kultur."

All Schools to Close On Armistice Day. SACRAMENTO, Oct. 28.—Every public school in California will close Armistice day, November 11, instructions to that effect having been sent to every school in California, according to an announcement by William C. Wood, state superintendent of public instruction. His proclamation in part follows:

"Now, I, Will C. Wood, state superintendent of public instruction of the state of California, hereby communicate to you and to all school officials of the state of California the act of the governor in setting aside November 11 as Armistice day, and call upon all the school officials to see that the day is observed according to law, thus keeping alive in the hearts of the young people of America the spirit of gratitude due to our brave soldiers and sailors for their valorous part in the great war."

HOGS BRING HIGH PRICE. HANFORD, Oct. 28.—Fifteen carloads of hogs especially fed for competition, netted \$40,000 at the second annual "Pork Day" auction here. The top price was \$11.75 per hundred weight. The 2,000 people who gathered the witness the judging were guests of the Breeders' association at the noon meal.

FRIDAY, OCTOBER 29, 1920.

NEXT YEAR'S TAXATION.

Secretary of the Treasury Houston the other day told the American Bankers Association in annual convention at Washington that the government's expenditures for the next fiscal year beginning July 1, 1921, would be about four billion dollars. This is the first official estimate the country has had of next year's expenses of the federal government, and while it is not exact, nor definitely given, it is a fair warning of what to expect.

This four billions of revenue will be levied on the business of the calendar year of 1920 and Congress will be called upon to readjust the tax schedule at its next session, opening in December. Compared with the amount levied on last year's business, the internal revenue will show, providing Mr. Houston's estimate is correct, in 1920 a decrease of about one and one-half billion dollars.

There is also the promise that a revision of the tax schedule with a view to removing some of the harsh and inequitable provisions now existing will be taken up at the next session of Congress. Mr. Houston said to the bankers convention:

"I am by no means committing myself to the existing schedules of specific taxes. Much of the war legislation is of necessity hastily devised. I think it of urgent importance that there be a prompt survey of the situation with a view to the reform of the tax, to the wiping out of the inequalities, and the assurance of sufficient revenue which may not be retained if the present system remains intact."

The prospective reduction of \$1,500,000,000 in the tax bill and the still more encouraging promise of a revision of the existing tax schedule is gratifying to business and industry. The latter is a long existing need and should have been attended to at the last session of Congress.

SHARING THE BURDEN

Rt. Hon. Arthur J. Balfour, formerly British secretary for foreign affairs and more recently special representative of his government to Armenian and other territory of the former Turkish empire, has made a report to the Supreme Council of the Allied power regarding the Armenian mandatory. It seems quite sensible when compared with the original proposal to give the mandate exclusively to the United States and with one slight drawback may prove entirely practicable.

Mr. Balfour is an old and experienced hand at diplomacy and it is not surprising that the Allied nations turned to him for a suggestion out of the embarrassment caused by the refusal of the United States Senate to accept the recommendation of President Wilson that this country become the guardian of the new Armenian republic.

Briefly stated, Mr. Balfour's idea is that no one nation should be expected to assume the entire burden of restoring peace and security in Armenia and insuring protection against Turkish and Russian attacks. He proposes that each nation participating in the benefits of the League of Nations should bear a share of the expense and trouble of putting into effect the proposed mandate. A very simple expedient, and the only surprise is that it was not thought of before Armenia was offered to the United States.

Great Britain naturally feels a degree of responsibility for Armenia. Although she frequently has expressed horror at the treatment accorded the Armenians by Turkey—in the governments of Disraeli, Gladstone, Campbell-Bannerman and Asquith—she has done nothing to put a stop to Turkish atrocities. In Russo-Turkish conflicts—both military and diplomatic—she has lined up at the side of Turkey and helped to maintain the wide-flung reign of the Sultan. But finally there came a time when further efforts to prevent the dismemberment of Turkey was futile and then it became necessary to consider what should be done for Armenia.

Mr. Balfour was not the only British statesman or diplomat to recognize that considerable cost was involved in any practical plan for maintaining Armenian integrity once Armenia was recognized as an independent government. But the first proposal of Europe was a blunder: it was to shunt the whole job on the United States. That having failed the astute British officials does

not renew the suggestion that any one power be charged with the whole responsibility and the cost. If he did so England might be suggested, or it is possible that some other country which England would distrust would be given the job. So, with this country out of consideration for the present, the Armenian mandate is to be divided if Mr. Balfour's proposal is accepted.

But whatever the motives that have led to this conclusion the recommendation should be heartily welcomed by those nations that have joined the League of Nations. It really promises aid for the Armenians, now surrounded by merciless, cruel and scheming enemies. If the great powers of Europe assume the duty of her protection the ruin that threatens may be avoided.

LATIN AMERICAN THOUGHT.

Sentiment in South America regarding the United States unfortunately is divided. One large section is passably friendly but suspicious; another is openly suspicious and given to antagonistic urgings, while a third, the smaller section of the three, is confidently reliant upon the good intentions of the people of this country.

Of the last-named group the declaration last April of President Brum of Uruguay was a notable manifestation. Senior Brum proposed the formation of an American league, based on a declaration by all Latin American countries, similar to the Monroe Doctrine, which would thus place them on a footing of equality with the United States in maintaining the Doctrine. This is a concept of equality and fraternity among all the peoples of the northern and southern continents.

The reaction against the Brum proposal exemplifies the attitude of the antagonistic group. This was best illustrated recently in an address by Dr. Lucio M. Moreno Quintana, an Argentine lawyer and grandson of a former president of Argentina, before the law students of the University of Buenos Aires. This address has been printed in pamphlet form, dedicated to the late President Carranza of Mexico, and is being given wide distribution by the leaders of the agitation against Pan American cordiality.

Dr. Quintana contended in his address that the safety of Latin American countries lay in the formation of a league exclusively among themselves, a Latin American league of countries of the same origin, customs, similar language and professing the same ideals and aspirations. This league should be formed, he said, "with the end of uniting their common interests and presenting a defensive bloc against North American imperialism and against any European pretensions." The recognition of the Monroe Doctrine in Article XXI of the League of Nations covenant, said Dr. Quintana, was a matter "upon whose consequences for them all the Latin American countries ought to meditate profoundly."

A demagogic ring was given to Dr. Quintana's speech when he declared that the Monroe Doctrine was an imperialistic doctrine formulated and solely intended to maintain North American hegemony over the rest of the hemisphere.

Plainly this lawyer and professor of Argentina is either ignorant of the history of the Monroe Doctrine or careless with his handling of facts. At the time the Monroe Doctrine was formulated the tendency of American sentiment was in the opposite direction to anything that could have been called "imperialism." There was apparently the underlying motive of protection of the United States as then existing against any further acts of external aggression, but the plan of this protection was cast on broad and unselfish lines. It was the idea of President Monroe that the several small nations created in South and Central America through the revolts against European sovereignty should have the opportunity to develop and pursue their destiny according to their own wishes and self-devised methods.

If there was a thought of the future security of the United States it was intimately related to the idea of seeing to it that the independent republics to the south should be given the chance to become competent in their self defense against European interference with their affairs. There was no thought of bringing Latin America under the domination of this country; only the purpose to preserve, in its own interest, Latin America from European domination.

While in the intervening decades politicians have given various and independent, and occasionally irresponsible, versions of the Monroe Doctrine there never has been on the part of the government any serious departure from the policy laid down in Monroe's administration. There have been several instances of interference in the affairs of Latin American republics, when disorder and collapse of governmental authority became intolerable, or, as in the case of Cuba, to oust European control, or, as in the case of Venezuela, to prevent European governments from employing debt to give them a new foothold; but no instance which upon final analysis will not be shown to have been intended in the best interest of Latin America.

The present is a delicate period in the relations between the United States and Latin America and calm, far seeing minds and temperate voices are much needed. Careless men like Dr. Quintana have the capacity for much harm. In every land are to be found reactionary disturbers of the peace. When they operate upon an international basis they often do much mischief. The best antidote is information and study. Surely it would be easy for the intelligent and patriotic leader of Latin American thought to follow Dr. Quintana and his kind with the truth.

NOTES and COMMENT

The registration in Alameda county shows but 1287 who desired to be known as Progressives in this erstwhile Progressive stronghold. There are 15,209 who declined to say how they feel about political parties, but 115,448 were willing to be put down as Republicans, while 26,256 confessed a predilection for Cox and his policies. The socialist cause has not grown—indeed, quite the reverse—as their registration is only 2543.

Georgia women who oppose suffrage put it in a series of resolutions they urge women not to register as a means to defeat "the infamous schemes of Alice Paul and her crowd, who intend to destroy the home life and moral uplift for which Christianity has been struggling for 2000 years." With no intent to comment, we may merely say that we did not know it was as bad as that.

The "intelligent voter" must be feeling a strain when he reads the pros and cons of the various legislative measures that are on the ballot. With great vehemence it is declared in one advertisement that a measure is salutary, even necessary, and in another that it is "wholly vicious." If not infamous. But he will have to carry his perplexities to the polls, where they are likely to be added to by the size of the ballot and the circumstances of the booth.

How different things are from what they used to be in a measure illustrated by the refusal of Superior Judge Shields of Sacramento to order the dissolution of a milk company incorporation to do business as a company entails responsibilities that now seem to be enforced, whereas, incorporation was formerly sometimes made to shield individuals from responsibility. At least, many corporations were not taken seriously by those most concerned for them.

There is one disadvantage to those countries which deport their royal families. They have to go out and skirmish to find the deportees if they decide to try another member of the family on the throne. Thus, the Greeks have sent a "condolence" to the brother of their late king, sojourning in Switzerland, and would be like to come and try reigning over them himself. Of course he will go, for Kinging has its compensations, whatever drawbacks may be encountered.

It is announced in a heading on a New York despatch—as though we are to miss something momentous—that "capitalists from Cuba are to take boat away from United States." The "boat" is the match between Dempsey and Carpenter. No doubt there are many in this country who would like it to be pulled off here, but the bareness will not be unanimous. And there is consolation in the fact that airships cover the Atlantic in a matter of hours.

Does anybody get it distinct—the outcome of the investigation into the crookedness of Pacific Coast League "palphers"? There would seem to be a decree in this country that matters with regard to baseball players are still keen on the game, but that they want it clean beyond suspicion, was attested by the great crowds which attended the opening games of the Tribune League. There may be a hint for professional managers here.

A speaker at the convention of the American Humane Association, in session at Omaha, protested against the destruction of animals and birds, characterizing the instinct to kill as a survival of the spirit of the Stone Age. There is a growing sentiment against the idea of going out and killing something just to have fun. But it is not popular yet to declare violently to this effect.

There is something sad and tragic in the President's appealing speech for support of his policies, particularly the League of Nations. One gets that from his reading and without the addenda describing a broken man. If some others are supplying the horrors of the Democratic campaign, the President is supplying the tragedy.

Registrar Zemansky of San Francisco has heartened the girls who have married since they registered by informing them that they did not lose their votes through the chance that there was a rumor abroad that they had thus disfranchised themselves.

SPIRIT of the STATE PRESS

Joseph and William Smith recently purchased an entire town, Poonkunny, between Covelo and Laytonville. Twenty years ago the town was one of the most important in Mendocino county, but the route of the railroad did not touch it, and its population dwindled until now it is little more than a heap of battered sheds and barns. The site of Poonkunny covers 363 acres, all of which was purchased by the Smith brothers—Santa Rosa Republican.

Somebody ought to compile a new dictionary, based on Dr. Samuel Johnson's plan under which he declared cats as food for horses in England, for men in Scotland. It was he who defined patriotism as the love of a scoundrel. We should like to define a certain type of politician as a man who strives to make the world safe for hypocrisy, and Bolshevism as the frenzy of epileptics run amuck among paralytics—Bakersfield Californian.

Ruby and Pearl Hunter, 16-year-old twins, who were recently released from the Sonoma state school, have been transferred from the county jail to the Butte county detention home. The kids will be kept at the home until a decision is rendered by the Third District Court of Appeals, which took under advisement last week the writ of habeas corpus filed by attorneys King & King of Gridley, Counsel for the girls—Oroville Register.

THE ETHICS OF KUNO

To the Editor of The Tribune:

You have published the substance of the interesting report made by the Japanese Professor Kuno, of Berkeley university, to President Barrows. Just what or why, the report is not explained, and may be judged only as it appears. Professor Kuno describes all of his countrymen in the United States as "snacks, and spies," and all the other Japanese professors and men of science in our universities and public institutions as "spies."

The Professor also expresses the sinister, dangerous and criminal designs of the Japanese government against us and convicts it of international immorality and criminal intent.

In conclusion he demands that all of the Japanese in the United States be naturalized and admitted to full citizenship in this country.

I recall no instance in history in which two nations have been favored with such a terse and comprehensive estimate of their character. Prof. Kuno proves Japan unspeakably wicked, the Japanese here to be snacks and spies, and therefore fit for American citizenship. If he lived here thirty years and flirts thus with such a country as is fit for that sort of people as citizens?

Prof. Kuno's report was remarkably informed by its prompt approval published by Drs. Wheeler and Barrows, the president emeritus and president of the university. They certify to the correctness of the report and warmly vindicate Prof. Kuno, making themselves responsible for him and his demands and demands. These two eminent university authorities join in ascribing great scholarship to Prof. Kuno, and declaring that he has "unbiased American ideals and independence, and his judgment must be respected." So, from the light shed by both the rising and the setting sun of the university, we see a complete definition of "American ideals," of which Prof. Kuno has inherited an abundance. According to Drs. Wheeler and Barrows it is an "American ideal," to defame and slander your own country and countrymen, to call them snacks and spies, and informers, and they praise Kuno for doing that ideal in his report.

Therefore we get officially the ideal standard taught at the university. Wheeler, Barrows and Kuno all complain that the Professor was not popular with his countrymen here, and add that to other accusations against the Japanese. There are many American teachers and professors in the schools and universities of Japan. If one of them used up to the Wheeler-Barrows definition of "American ideals," and defamed his country and his countrymen, what would the Americans in Japan do? Not being educated to the Wheeler-Barrows standard they would demand that the Japanese authorities dismiss such a professor, and it would be done.

Let us conclude this review of our university standards by acknowledging other Japanese professors and men of science in the United States for denouncing whom as snacks and spies Wheeler and Barrows praise, and approve Kuno. Does Kuno include in this category Prof. K. A. Kawakawa, professor of history, Yale University; Prof. Leubach, Stanford University; Dr. Shiro Teshima, assistant professor psychology chemistry, Chicago, whose reports on chemistry and biology are widely published by our scientific associations; Dr. H. Noguchi, Flex-

Things You Should Know About Milk for Baby's Sake

By Dr. LEONARD K. HIRSHBERG
A. B., A. M., D.
(Johns Hopkins University.)

Pliny, that solemn old owl of nearly two thousand years ago, said that the best and most wholesome feeding was upon one dish and no more, and that single dish should be plain and simple—and he especially objected to sauces.

Listening to Pliny, we reflect there are few new notions under the sun.

The chief value of eating does not consist of the contents of the stomach and that those who season their food with the "quaint flavor," it consists of the food-value we are getting.

In using milk, for example, it must be pure. Pure milk cannot be "cold" by the beauty of its appearance, not by its sweetness of flavor, nor by its richness of its quality. All of these satisfactory elements may be present and yet the milk be alive with disease germs and bacteria of all kinds.

Even to boil or pasteurize milk does not suffice, if afterward it is exposed to the contamination of handling, of the dust, of unsterilized bottles or other containers.

There is danger that some milkmen may pasteurize it at 140 deg. in order to keep the milk from souring before delivery. Such milk will not as a rule, sour, but it still contains more or less of certain types of bacterial spores, which develop a flora that will cause putrefaction of the milk. The human taste is not very efficient in detecting incipient changes of this nature, yet the development of these spores beyond a certain point means that the milk has rotted.

Professor McCullum of the Johns Hopkins University school of hygiene says that mothers are often fooled and do not realize that milk is not infrequently in a bad condition, yet does not seem to be "spoiled."

Milk which is evaporated and canned without the addition of sugar must be practically sterile, otherwise it would spoil in the can. While the manufacturers of canned milk make a fine product, and a very necessary one, canned milk may not be actually sterile, but still contain spores of a kind that cannot grow without air. There being no air in the can, they do not develop and spoil the contents of the can for any usual purpose, but they are present and ready to develop when the can is opened, and mothers who use this milk are prone to be careless and to use canned milk after it has been opened long enough to cause deterioration.

GOAT'S MILK AN ALTERNATIVE

Professor McCullum declares that rickets are often the result of a child being fed on canned milk, for it becomes "spoiled."

It is also true that children who are fed on canned milk are likely, when grown, to have knock-knees, bow-legs, pigeon-toes, concave chests and other bone deformities of rickets.

The only safe alternative to human milk for the infant is goat's milk, and a goat should be kept that its milk may be drawn as it is needed, or, indeed, the better practice might be to apply the infant directly to the goat's nipple.

Canned milk is essential, but it has hundreds of purposes outside the nursery.

O. B. U. FINANCED BY JAPANESE, IS CLAIM OF POLICE

Raid Said to Disclose Link of Radical Organization With Orientals.

Japanese participation in the "One Big Union" movement which has its headquarters in Oakland at 812 Broadway, is alleged by the police, who today held the O. B. U. secretary, Bernard Putte, in custody at the city prison pending investigation.

Following a raid on the headquarters conducted by Fenton F. Thompson and Thomas Wood, inspectors general inquiry into the operations of the "One Big Union" movement, the latter were at work in San Francisco where Putte, who is 28 years old, has his home, he says.

The evidence of Japanese participation and help for the O. B. U. includes appearance of a Japanese speaker here a week ago last Monday night, extensive literature opposing the alien land law, and alleged operation of organizers among the Japanese of Oakland and the East Bay region.

Books of the local branch of the O. B. U. confiscated, show no contributions from the Japanese. They only indicate that Putte has been paid about \$12 a week as secretary, and were unsatisfactory explaining the O. B. U. activities to the police.

According to the inspectors, Putte, who declined to talk today, said yesterday that all the literature and financial aid came through the Los Angeles headquarters which are maintained at 501 California building in that city.

Another incident which was considered significant of Japanese participation, was that with the Japanese speaker, who addressed a crowd at the organization headquarters two weeks ago, was Carl A. Helme of Chicago general secretary of the O. B. U. Helme, it was asserted, accompanied the Japanese to the city.

In the raid the literature confiscated included a pamphlet and dodgers, two of which argued that the alien land law would drive the Japanese to the city, and competed with labor there and another which argued that the problem of the Japanese was identical with the general problem of labor.

Inspector Thompson says the O. B. U. hall has been the meeting place of most of the radicals in the city for weeks.

The rooms, following the raid which was carried on late yesterday afternoon, were closed today, none of the workers or usual habitués of the place being in evidence according to the police.

Texans Will Fight Japanese Invasion

SAN BENITO, Tex., Oct. 28.—Residents of the fertile Rio Grande valley prepared today to fight threatened Oriental invasion following warnings of plans of Japanese colonization along the Rio Grande.

The Japanese, forming passages of the California anti-alien land owning bill, are laying plans to colonize the valley, reports here said. A report from the El Paso Chamber of Commerce declared 10,000 acres have already been purchased in the valley by California Japanese. Tornillo, Tex., near El Paso, is said to be headquarters for the movement.

Loopholes in Anti-Alien Law Shown Kuno Exposes Methods of Japanese

The "Gentlemen's Agreement" and the "Anti-alien Law," international arrangements by which in the past this country has attempted to adjust the Japanese problem, have failed because each of them had a loophole, according to Professor Yoshi S. Kuno of the University of California. His consideration of this and other phases of the Japanese situation is reached in today's installment of his report, which is being published exclusively in The TRIBUNE.

With this installment Professor Kuno gives publicity to the first of a series of appendices to his report which are not only absorbing and illuminative in themselves, but also attest to the thorough manner in which he performed his work. Mrs. Kuno, who has acted as his assistant and amanuensis, says:

"Professor Kuno did almost more work on the report after he had first written it than before. He wanted to be extremely careful both as to his data and conclusions. This

explains why he has added the appendices. Each of them contains some further explanation of a point not previously, to his mind, altogether clear, or the results of some further investigation which he has made."

Today in these appendices Professor Kuno considers the faults in these two laws. Tomorrow he takes up various persons connected with the Japanese problem, and decides what he believes to be among the sources of their inspiration.

Survey of the Japanese Question

By PROF. YOSHI S. KUNO

Installment Five.

(Copyright, 1920, by The Tribune Publishing Co.)

Even Americans who have spent half a lifetime as teachers or preachers in Japan have often failed to get below the surface of Japanese life. For instance, Dr. Sidney Gulick, who lived in Japan for more than twenty years and is a renowned Christian scholar, and who came to this country in 1914 when the Japanese question became a serious turn, for the purpose of interpreting Japan to America, is a case in point. In order to bring about a better understanding, he published a book entitled "The American Japanese Problem," in which there are several misstatements because the existence of such houses makes rape an unheard of crime in Japan.

Does any one believe that this is true? No wonder that some persons have erroneously accused him of being a paid agent of the propagandists, though nothing could be further from the fact. However, when making that statement, Dr. Gulick, himself, that he was stating the truth. Is it therefore reasonable to expect that the Japanese, which even so profound a scholar as Dr. Gulick could not compass after having mingled with its people for more than twenty years, can be comprehended in a three weeks' sojourn among the show places by men who neither speak her language nor conversant with her history and civilization? The futility of such excursions is apparent.

DECLARED UNIT FOR EXCHANGE PROFESSOR

Another proposition that has received some support, but which would be equally barren of results is the plan of exchange professorship. Because of their blind and burning patriotism, Japanese scholars are unfit to be exchange professors. They count scholarly veracity and honor as naught when they have opportunity to introduce their country in gala-day

Furthermore, many of them are pedantic.

In 1911-12, Dr. Inazo Nitobe, professor in the Imperial University at Tokyo, came to the United States as the first exchange professor and gave a series of lectures in Brown, Columbia, Johns Hopkins, Virginia, Illinois and Minnesota. Later these lectures were published in a book entitled "The Japanese Nation, its Land, its People and its Life." It is an exceedingly interesting and charming book. Although it is not my purpose here to point out how Dr. Nitobe portrayed Japan in his lectures, I would like to discuss his linguistic ability. In the course of his lectures he quoted correctly and aptly passages from Latin, Greek, French and German. Any one reading his book will be greatly impressed by his wonderful linguistic attainments. At the same time he would be amazed and shocked to discover that most of the synonyms quoted from the Chinese are wrong and that even the Japanese classical synonyms are incorrect. Certainly no American University invites an exchange professor from Japan because of his Occidental attainments. Oriental scholarship is what is demanded. Despite his international reputation, Dr. Nitobe not being free from typical Oriental leaning and pedantry, failed to fulfill his mission. If so renowned a scholar is unable to speak with-

out pedantry, how much reliance can then be placed in the statement of less Occidentalized scholars?

INTERCOLLEGIATE DEBATES FAVORITE

If bankers and other men of means in both Japan and the United States should subscribe to a fund to be used toward international betterment, such fund might be apportioned among several universities, to be used as prize money in intercollegiate debates on Japanese subjects. Annual debates of this sort are very rare, arouse the interest of the public in general, but they would at the same time make possible the presentation of Japanese questions in their true light. A substantial sum should also be raised in each of the two nations for the purpose of sending University graduates to the country of the other to study there for at least three years. Men of this type, having a good educational foundation and being full of ambition and vigor would be able to do research work without bias, and upon returning home would become leaders of thought and interpreters of the life of the country in which they had sojourned. After a decade or two of such exchange of students untold benefit would result.

Thus through education and community of thought and interest, radical racial differences and standards would gradually become

POST HOLES CAUSE RIOT MORE POLES ARE BARRED

Residents of Wadson Place, between Fifty-third and Fifty-fourth avenues, staged an impromptu riot this morning and drove out a gang of laborers intent on digging holes for telephone poles.

Commissioner Edwards, beset with frantic appeals growing more urgent each moment, appealed to the police.

Captain Thorwald Brown of the Melrose station, in a fast automobile, did a "Sheridan's ride" through East Oakland, and arrived just in time to save the situation and the laborers.

The riot and the post holes are now non-existent. There were no arrests and nobody hurt, but for a short time things looked exciting. The trouble began early this

morning when the laborers arrived with their picks and shovels and started digging. Nobody noticed them or objected till a riot happened to ask a laborer some questions.

"What are you digging for?" asked the resident.

"Digging holes for telephone poles," said the laborer.

"Great Scott, we can't have any more poles," cried the resident. "We've got 'em in our back yards, front yards, all over. They're in our garages. The block seems to be the center for all the poles in creation. Stop it. We must stop it." The resident spread the alarm and the other residents did the rest. The laborers are now digging somewhere else.

165,000 SAMPLE BALLOTS MAILED COUNTY VOTERS

With fifty deputy county election clerks working day and night 165,000 sample ballots have been mailed to voters in Alameda county, according to County Clerk George E. Gross.

"Complaints are coming in that score from voters who say they have not received their ballots," Gross said. "Anyone who does not receive a ballot can secure one by calling at the Hall of Records."

"Election literature has been flooding the post-office, and it would not be surprising if some of the matter would be delayed."

"Sample ballots cannot be mailed now as they would be too late. Those who wish copies must call at this office."

Cry on Geraldine's Shoulder

I have the greatest job on earth. When a question arises that I don't answer, all I have to do is to wait and soon someone comes along and does it for me. Take this and-faded girl and "vamp" question for instance. I have a few opinions of my own on the subject, but hitherto my peace loving soul has sidestepped uttering them. It is a lot easier to invite trouble to come and sit on your neck than it is to shoo it off again. But at last here comes someone to be my proxy.

What Is a Vamp?

Listen Jerry! What is a vamp? An honest-to-gosh really VAMP? I've never seen one outside the movies. Do they all resemble Theda Bara and Bebe Daniels? Just how do they do their hair and roll their eyes? What does "vamping" consist of? "One of 'em" and "old-fashioned girl" seems to be the answer at every turn. They must be very watchful, because I have perfectly large sized, quite usable eyes and I don't see 'em.

What if a girl DOES go sleeveless to a dance? Hasn't it been the custom since time began? Didn't stone age ladies have undraped arms? And even the beautiful Greek women and the Mid-Victorian and our own hop-skirted grandmothers at times exposed their shapely shoulders. So why, I'd like to know, is it a crime for the modern woman to do the same? The girl who doesn't divulge occasionally seems to be hiding her light behind her sleeves, as it were. This means not only sleeves but other things as well. Why not puff out your hair if it makes you more attractive or, if you have a perfectly dreadful complexion, why not improve it? And so on ad infinitum.

A fellow likes his girl to be a figure of romance. Who could become passionately enamored of a girl in number six, pale tan ground-grippers and a funny tweed hat on the back of her head? I don't know any. Try a dainty dress and dainty slippers and curl your hair and powder your nose and, if need be, help your lips and cheeks along. It will pass. What counts most anyhow is your reputation. Shakespeare says, "Good name in man or woman, dear my Lord, is the most immediate jewel of their souls." So if your good name never to hurt your good name, why worry. So—WHAT IS A VAMP?

Vamps and Vamps

I will tell you about the worst vamp I ever knew. Curious. She didn't have Theda Bara eyes or a boconstricor wig. She had a sharp little nose, a complexion that looked as if it had come over in the Mayflower and had been working

Letters of Theoric Joe

DEAR JOE: Your new photo arrived, and don't worry. I won't show it to the baby. The little angel has been showing signs of suffering from a possible tooth and I'd be the last one to add to his worries. But don't lose any sleep, Joe, over your inefficiency to take a becoming picture. Brains before beauty, is a good motto, and it ought to be an easier one for you to live up to than for most men, on account of your natural scarcity of beauty. It's my opinion that almost everything is a blessing in disguise, only a cursing in this case the disguise is so perfect you couldn't hardly be expected to find the blessing without it being pointed out to you.

And, anyway, Joe, beauty is only skin deep and if you happen to be thicker-skinned than the majority it ain't your fault. As Mrs. Fink says, as long as the heart is in the right place we should worry about the expression. You weren't any better-looking when I married you, in fact, on the contrary, because you were thinner then and it sort of aggravated your looks, but I

took a chance, and now Joe believe me I miss you as much as if you was the handsomest 6 foot 3 Apollonian that ever came down the pipe, and maybe more, because personally I never was a great one for admiring statues. I think they're insipid. But to come back to the baby's likelihood of a tooth, Joe, I really do think that at last he's showing at least a strong desire for one. I'd hate to think he was holding out on me from a sense of pure stubbornness. I never could abide stubbornness in children. Baby is showing that qualification I'd soon know it out of him, young as he is. Personally I don't believe in allowing children to grow up wild like the weeds of the desert. They say time and tide waits for nothing, but I don't believe in taking chances with the future when the present is so bright. As Mrs. Fink says, spare the rod with a child and you'll spoil them both. Well, is, is. Love, TESSIE.

Tomorrow Joe states his attitude on official censors.

hard ever since, and her clothes hooked on her ear lobes and tied around her ankles. She went to church three times on Sunday washed the parlor curtains every two months, always cleaned the doughnut fat with potato slices and scrubbed the kitchen floor on her knees. Her children's stockings were always darned and she saved her husband's salary like she did the bacon dripping.

And YET, I'm willing to bet against any odds that this woman's influence on her man was more vicious than Cleopatra's. She nagged, she picked, she took his Red Love of Adventure and pruned it and spread it and turned it into Dried Beef. She made him count his words every time he spoke, she worried about his soul. She turned what might have been a Pirate and a Poet into a Paper Weight and she called herself a GOOD WIFE!

Another Kind of Vamp

That was the worst vamp I ever knew. Now I'll tell you about the best woman I ever knew. She lived on a mountain trail and the morals were as weather beaten as her shack. She smoked, she drank, she swore, she gambled. When she rolled up and went to town she looked as if she had been dipped in a flour barrel and caulked by a scene painter. Her waist would have made a one-piece bathing suit look like a fur coat. But her heart was a Home for all who needed it, her hands were Peace and Healing to those who came her way, and she put the Love of Life into broken men. When the Big Day comes her soul will be set in diamonds while the rest of us draw department

house pearls if we get anything at all. It isn't the things you wear outside, it isn't the way you talk, or the stuff you stick on your nose that counts. IT'S WHAT YOU GIVE AS YOU GO ALONG THE TRAIL. Is your motto GIVE OR GRAB? The only place where the rouge and lip stick count is this: IF YOU GIVE ENOUGH OF YOUR STRONGEST WILL BE HAPPIEST SELF NO ONE WILL BE LOOKING AT YOUR NOSE.

Hopelessly in Love

Dear Geraldine— I am 18 years of age and hopelessly in love with a girl. I am alone in the world and have no one to turn to, so will you help me? I have been going with him every six months and he gave me 15 cents to think he loved me—in fact we were going to be married soon. He has been terribly jealous of my other gentlemen friends and I told him I would give him any girl he wanted to meet me fifty-fifty, for I knew he had been going with other girls. He said he would not advise me to do that, for he said "I might even be engaged to someone else, for all you know." Later he told me he was engaged. I am almost heart broken for I care for only him. He said he would come over any time and see me—all I would have to do would be to call him up. I have seen him with another girl. What shall I do and how shall I treat him?

STANLIE.

The Best Way Out

Stanlie, dear, I wish I knew something about you—not the color of your eyes or hair but the QUALITY OF YOUR BACKBONE. For I am going to advise you to do something that it will take a Backbone Girl to accomplish. You played the game square little girl when you were with hands—and you didn't win. There are a thousand things that a girl is supposed to do in such a case. She is supposed to "get mad," "seek revenge," "cut him dead" and do a thousand other silly, melodramatic things. Don't do any of those things, Stanlie. They are only CHILDISH GESTURES. BE A WOMAN. Be proud of your love and never mind if the OBJECT wasn't worthy. LOVE IS ALWAYS WORTHY. We are always richer for it unless we try to keep it all to ourselves and then it sours like cream that isn't used. Don't snub him, speak to him pleasantly when you meet but STAND UP AND LOOK BEYOND HIM AT THE GREATER ADVENTURE. He isn't for you even if he were not engaged to the other girl, because dear, he is BELOW WEIGHT. Somewhere along the trail the TRUE LOVER is waiting. Make yourself really in generosity and simplicity, in sweetness and faith. Go out and find him. Do not limit yourself by the things people do to you. Bound your life only by WHAT YOU CAN GIVE TO THEM. I'm sorry for the hurt, dear, and I want you to know that you're no longer alone. Jerry belongs to you now.

The Spirit Juggler

(When Miss Molly Wynter, the medium in the mask, seated with her limbs bound with strong cord, and her chair sealed to the floor, produced a ghost, all the experts, including Sir A. Conan Doyle and Superintendent Thomas of Scotland Yard, were absolutely puzzled. Yet the whole thing was only a remarkably clever trick. Miss Wynter kept well the secret of how it was done, but now for the first time she makes public the truth of the case, telling exactly how she produced the amazing phenomena attributed by so many to supernatural agency.)

By MISS MOLLY WYNTER

(The World-Famous Medium.)

As her extended arm touched the curtain she continued her movements, allowing her arm to crumple up against her body, as if she were dematerializing through the wall. Then she sank quietly to her knees, and moved back toward my chair at this altered attitude. She herself crouched behind my chair, but lifted the veil from her body, and carried it across my lap. This gave the effect of the floating spirit passing through my body. Now the ghost approached the other wall, gradually rising upward, and on reaching the wall stood on tiptoe and held the veil in her upraised hand, so that it nearly reached the ceiling. It was now the ghost's duty to dematerialize, and this business had been rehearsed for many hours to get it perfect. Gradually she dropped the veil to the floor, and crumpling it up so that the lower part of it dropped the smaller it became. At last it was no more than a veil of flimsy material held in the ghost's fingers, and she slowly thrust this into a pocket in her dress, turned her back on the audience, and became invisible in the darkness.

Floating Through the Air

It was now time for me to levitate myself, or float through

the air. For this purpose the ghost came to the back of the chair upon which I was sitting. We had not prepared for Superintendent Thomas' sealing of the chair to the floor, and we were both rather worried as to how to proceed, and Mr. Selbit from his position at the back of the room could not volunteer any suggestions. Therefore I decided to take the chance and fight, anyway.

I am no light weight, but the illusion of floating is a fairly easy thing to imitate. I was wearing particularly vivid white stockings and shoes. Owing to the audience now having become accustomed to the darkness, my shoes and stockings, as we had found by experiment, would be sufficiently discernible for the purpose of the illusion. The ghost upped my chair slowly upward, then turned it on one leg to the left and tipped it up until it stood at right angles to the floor. Mr. Selbit in a stage whisper informed those of the committee near him that it seemed as though the medium was moving.

The Illusion Effective

This suggestion had its desired effect, one of the newspaper men literally shouting in his excitement. "Look, she's floating!" and then the ghost ambled the chair on its two back legs across to the opposite side of the room, where she left me to my fate, and hid herself again behind the curtains. I now developed another fit of weird noises, and then called for lights. Someone switched the electric lamps on, and the audience was for a time almost blinded by the altered conditions. Mr. Selbit now took charge of the proceedings. "Before we compare notes and see if we agreed on what has taken place. The windows are still sealed, and the door is still sealed. Will the persons responsible for these preparations please say if they are quite satisfied with them?"

The Ghost's Escape

The gentlemen who had sealed the door first verified their signatures on the stamp paper. To break the seals, Mr. Selbit again opened the door a few inches, and said, "Perhaps you had better search the curtains." For this purpose he pulled open the cur-

tain nearest the door, thus allowing the ghost to escape, the door being closed immediately after her, and then the curtain pulled farther open to admit the burly frame of a well-known newspaper man. This time the ghost made her escape in the full glare of electric light—not a bad achievement.

All the conditions to prevent trickery were stated to have been satisfactorily carried out, with the exception that the seals on the chair legs had perforce been broken. A somewhat heated argument ensued as to whether this was attributable to spirit force or to my violent exertions, and the believers eventually seemed to persuade the rest of the audience that the spirits had done an excellent

thing in exerting sufficient strength to destroy the Scotland Yard seal. This was my first big achievement, and I do not think I did badly. Before this I had conducted several seances, sometimes to amuse my friends, at other times to create interest in some new illusion that Mr. Selbit and I were about to exploit.

(In the next chapter Miss Wynter tells about table-moving and rapping, and makes further startling revelations.)

Skin Sufferers Do Not Want Mere Temporary Relief

Of course, if you are content to have only temporary relief from the terrifying itching and burning of fiery, flaming skin diseases, then you are satisfied to remain a slave to ointments, lotions and other local remedies applied to the surface of the skin. Such form of treatment, however, can make no progress whatever in eradicating the cause of the discomfort which often becomes a real torture.

But if you desire to free yourself from any form of skin disease, first of all you must realize that any disease must be treated at its source. Real genuine relief from eczema, (letter, scaly eruptions or any other form of skin irritations cannot be expected until you free your blood of the germs which cause these disorders. And for this purpose there is no remedy that gives more satisfactory results than S.S.S., the fine old blood remedy that goes down to the source of every blood disorder and routs out the germs which cause the trouble.

S.S.S. is sold by all druggists. Begin taking it today, and if you will write a complete history of your case, our medical director will give you expert advice without charge. Address: Chief Medical Adviser, 821 Swift Laboratory, Atlanta, Ga.—Advertisement.

The Housewife's Burden

When a woman is almost distracted from overwork, her home is in disorder, crying children, and on top of all is suffering from backache, bearing down pains, or some other form of feminine ills, then she should remember that hundreds of women in just her condition have been restored to health and regained their youthful strength by taking Lydia E. Pinkham's Vegetable Compound and not rest until she has given it a fair trial.

Proof that it Restored the Health of These Two Women

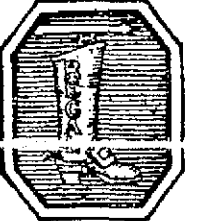

Cairo, Ill.—"Some time ago I got so bad with female trouble that I thought I would have to be operated on. I had a bad displacement. My right side would pain me and I was so nervous I could not hold a glass of water. Many times I would have to stop my work and sit down or I would fall on the floor in a faint. I consulted several doctors and every one told me the same but I kept fighting to keep from having the operation. I had read so many times of Lydia E. Pinkham's Vegetable Compound and it helped my sister so I began taking it. I have never felt better than I have since then and I keep house and am able to do all my work. The Vegetable Compound is certainly one grand medicine."—Mrs. J. R. MATTHEWS, 3311 Sycamore Street, Cairo, Ill.

Chattanooga, Tenn.—"I used Lydia E. Pinkham's Vegetable Compound before my baby came when I could no longer keep up. It strengthened my back and relieved me of the ill effect which so often develops at such times. That was my first experience with the Vegetable Compound. Years afterwards I took it during the Change of Life and got along so well I scarcely ever had to lie down during the day and seldom had dizzy, fainting spells. I am now well and strong, can do all my housework with perfect ease and it is a comfort to me to be able to say to other suffering women 'take Lydia E. Pinkham's medicine and be strong.' I will be glad to have you use my name if it will be the means of helping any one."—Mrs. R. A. FAIRBURN, 606 Orchard Knob Ave., Chattanooga, Tenn.

BIG LAKE OF OIL UNDER ALAMEDA, SAYS GEOLOGIST

ALAMEDA, Oct. 29.—Alameda, Bay Farm Island and considerable adjacent areas of San Francisco Bay are underlain by a lake of petroleum, according to John Bourland of 308 East Twelfth street, Oakland. Bourland, who is connected with the concrete shipyard on Government Island, has made an extensive study of geology and is known in Alameda for his geological work. According to statements to the Alameda Chamber of Commerce, he has traced the oil from the hills in East Oakland down across the flats to the edge of Oakland harbor, under the estuary and beneath the island of Alameda. From there it leads southward, passing beneath Bay Farm Island, and thence southerly and downward in the direction of San Mateo.

Bourland states that he is willing to show the tracings and proofs in the Oakland hills are greatly scattered and do not indicate oil in any great quantity until the various veins and leads converge at the tidewater. Here they meet and continue downward, passing beneath Bay Farm Island at a great depth, probably so deep, thinks Bourland, that reaching it would be impractical. He believes, however, that it could be

Teacher-Referee Unfair, Mother of Fight Loser Says

(By Associated Press)
CHICAGO, Oct. 29.—Miss Alice M. Hodge, principal of the Webster School here, may be called upon to defend her recent action of refereeing a fist fight between Abe Salvo and Salvatore Sortina, which Salvatore won. Miss Hodge said the fight was a good way of deciding quarrels among the boys of twenty-two nationalities attending her school. She said she had been a bit of a bully and got what he deserved. But today complaint against Miss Hodge was filed by Abe's mother, who said Miss Hodge was unfit to be principal. She said she did not object to the fighting, but charged that Miss Hodge urged Salvatore to "beat up Alice; hit him harder."

reached and brought to the surface profitably in Alameda.
Bourland's report is not the first of oil indications in the East Oakland foothills and the estuary shore. Veteran well diggers and fishermen have stated that indications have often been encountered in the past.

PARTY IS HELD UP BY AUTO BANDITS

SAN FRANCISCO, Oct. 29.—Operating in an automobile thought to have been stolen earlier in the evening, two masked bandits shortly after midnight overhauled another automobile containing William Nelson, 744 Castro street, and three companions, two of them women, and robbed them of \$10 and several articles of jewelry. The hold-up occurred on the Elbow boulevard, opposite Nineteenth avenue. Nelson, in reporting the matter to the police, declined to reveal the identity of the man and the two women who were with him in the automobile. He said his companion, a woman, reported the matter to the police, declined to reveal the identity of the man and the two women who were with him in the automobile. GIRLS! LEMONS BLEACH; WHITEN

Make Lemon Lotion to Double Beauty of Your Skin

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which can be had at any drug store, shake well and you have a quarter pint of harmless and delightful lemon bleach for few cents.

Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty of your skin. Famous stage beauties use lemon juice to bleach and bring that soft, clear, rosy-white complexion. Lemons have always been used as a freckle, sunburn and tan remover. Make this up and try it—Advertisement.

Five Thousand Tickets Sold for St. Joseph's Home Benefit Dance

Three active workers and some of the kiddies to profit by the benefit dance and Tag Day for St. Joseph's Home for deaf and dumb children. (Top) MRS. C. A. DE PUY. (Lower, left to right), MRS. HUBERT J. QUINN and MRS. MRS. A. P. ANDERSON.

More than 5000 tickets to the benefit dance for St. Joseph's home for deaf mutes, to be held this evening at the Arcadia pavilion, have been disposed of, and those assisting in making the affair today appealed to Oaklanders who have not yet made their contribution to attend the affair. The institution is maintained solely upon funds voluntarily donated, and it is for the purpose of raising money with which to buy the proper type of clothing for the coming winter.

Tag day, also for the benefit of the home, occurs tomorrow. Workers for the fund will appear on the principal streets of the city, and endeavor to obtain the needed amount.

Those assisting with the work are:

Dance committee: Mrs. Joseph A. Kennedy, Mrs. John F. Slavich, Mrs. Pierre Prefontaine. Dance supervision: Supervisor John F. Mullins, chairman; Supervisor W. J. Hamilton, J. J. Rosborough, Senator Edward J. Tyrrell, Daniel J. Mullins, Dr. O. D. Hamlin, John F. Chambers, George Nolan, Hubert Quinn, W. J. Kieferdorf, John F. Slavich and Joseph A. Kennedy.

Senator Phelan to Speak Before Oaklanders Tonight

Senator James D. Phelan, according to his managers, recognizes Alameda county as the great pivotal county of the state in his campaign to close his campaign for re-election on the east side of the bay. Senator Phelan will speak tonight in the Municipal Auditorium at 8 o'clock and will be introduced by Dr. Aurella Henry Reinhardt, president of Mills College. James F. Peck will preside at the meeting. Besides the speakers there will be a musical program, commencing at 7:30 o'clock, with a band concert and including numbers by the Rotary Club quartet of Oakland and vocal selections by Miss Leslie Gumpertz, well-known soprano soloist, of Berkeley.

Today's program in Alameda county included an automobile tour of the eastern end of the county. On next Monday Senator Phelan will spend the day in the outlying districts, and will close his campaign with a mass meeting at the Berkeley High school auditorium at 8 o'clock in the evening.

That the Progressive and independent voters of Alameda county will help the rest of the state in piling up a splendid majority for Senator Phelan is the confident prediction of Judge William J. Hayes, chairman of the Phelan campaign on this side of the bay.

GET EVEN BREAK Reviewing the situation, Hayes said: "Marvellous as it may seem from the standpoint of the professional politician, Alameda county will not only give Senator Phelan an even break, but it will do better and give him a substantial majority. The voters of Alameda county know Senator Phelan, they know what he stands for, and what he has done and will do for California, and that in many ways he has been a good friend to this community. Above all, they know that he is an able, fearless and independent representative of the people at Washington, and knowing they will help to send him back to finish his work."

A large number of Republican men and women, it is announced, will be on the platform with Senator Phelan this evening. The meeting is under the auspices of the Phelan for Senator Non-Partisan Club of Alameda county.

Last night Senator Phelan spoke before a large crowd at the Exposition Auditorium in San Francisco. He was introduced by John Francis Neylan, who was chairman of the meeting. Other speakers were Daniel C. Murphy, State Federation of Labor president, and Thomas W. Hickey, prominent attorney.

"I have two important measures now being considered by committees of Congress, seeking a solution of the Japanese question, with which I have identified myself very closely over a period of many years. I want the opportunity of saving California from Japanese aggression," Senator Phelan said in the course of his address. He said in part:

CONTROL MUCH LAND "The Japanese now control one acre out of every eight of tilthable land in the State of California. They have increased the prices of potatoes, vegetables, berries, seeds. They are the cause of the high cost of living so far as these necessary articles of diet are concerned. They possess an actual monopoly of these products. Should they vacate the land, their places will be taken by assimilable people. The Land Settlement Board reports an extraordinary demand for small farms. The returned soldiers are waiting for a chance, and there is no doubt whatever that California will be kept green with hands that are white."

The Japanese are violating the land law of 1913 by increasing their acreage through dummy corporations and taking land in the names of their children born on the soil. Last year they took out of the soil of California \$55,000,000, which, where not employed to purchase merchandise, went to Japan for investment in manufactures and shipyards.

I also believe that every man with a brain and every woman with a heart believe in the creation of a council or tribunal to settle international disputes within certain limitations and thus avert war. I am not only ready to accept reservations, but I have actually as a matter of record voted for every reservation calculated to strengthen our own jurisdiction over certain subjects, and preserve the right of independent action by the United States.

PRESERVE JURISDICTION I moved several reservations myself, one of which was to preserve our own jurisdiction over such domestic questions as immigration, naturalization, land ownership and the elective franchise.

My opponent has stated that I am a free-trader. I do not believe except in academic circles that there are any free-traders. A Democratic tariff for revenue, with incidental protection means the raising of money by taxation so disposed that it will protect against foreign competition the industries that we have established and are best able to maintain. On account of our tremendous war debt and the greatly increased cost of government and public works the tariff taxation will have to contribute largely to the public end.

Both Republicans and Democrats have created a non-partisan tariff commission which will report exact information as to the cost of production at home and abroad to the Congress in December.

"For the first time Congress will have the basis for fixing an intelligent schedule."

SHORTBRIDGE ON FINAL TOUR

SANTA CRUZ, Oct. 29.—At the start of his final three-day speaking tour here yesterday Samuel M. Shortbridge, Republican senatorial candidate, was greeted by a large gathering in this city. Colonel W. V. Vinton, whose father was a delegate with Shortbridge's father at the Republican convention which nominated Lincoln for his first term, presided today.

Ridiculing his Democratic opponent's efforts to dodge the tariff issue and the disastrous record of his party by appeals to non-partisanship, Shortbridge declared "there is no such animal as a non-partisan in the United States Senate."

Shortbridge added "the Democratic candidate's attempts to copyright the Japanese question and ride into office on idle words and idle slogans placarded over the state at untold expense have failed. California wants action to stem the tide of Japanese immigration and a Republican House and Senate with Senator Harding in the White House will speedily negotiate a treaty to this end or adopt a federal exclusion law."

WILSON PICTURED AS CRIPPLED WAR HERO BY GOV. COX

By HERBERT W. WALKER, United Press Staff Correspondent. EN ROUTE WITH GOVERNOR COX, CLEVELAND, O., Oct. 29.—

"Republican leaders are sinking to low standards when they continue to preach a creed of poisonous hate against President Wilson, a stricken victim of the war, unable to defend himself," Governor James M. Cox said today as he began another day of stump campaigning in Ohio. His opponents, he said, are seeking to make people believe that Wilson, not Cox, is running for President. Hot on the trail of Senator Harding, whom he continues to attack as "America's greatest wiggler and wobbler," the governor was to speak at Akron, where the Republican candidate spoke last night. During the day Cox was to speak at Youngstown and Ravenna.

Referring to the President's speech from a wheel chair in the White House Wednesday to a group of pro-league Republicans, Cox said: "Isn't it sinking to very low standards in this campaign to continue a propaganda of hate against the President of the United States, who, like a crippled soldier, was brought in in an invalid chair Wednesday? The country, in all probability, has been surprised to know how tragic is that picture in the White House. The chief executive of the United States in the giving of his strength, possessed as he

was of a sole obsession to end war. He tonight a stricken victim of the war, as clearly as does any soldier in a hospital for our disabled heroes."

The governor said today as a result of his visit to Indianapolis last night he had no doubt Indiana will be in the Democratic column. With the temperature near the freezing point, he spoke to the greatest overflow crowd in all his travels. It was estimated fifteen thousand shivered in front of the hall in order to hear the governor. Inside were about 6000.

WHAT are you doing Saturday afternoon? Or Sunday? Remember you have an engagement with us to visit Montclair---the new residence section now being opened back of Piedmont. If you'll phone and set a time convenient to you we'll call for you. Or you can get a free bus at the Syndicate Building every hour, direct to Montclair. Buses also meet the Park Blvd. cars at the end of the line, and the Piedmont Ave. cars at Park Way and Highland Ave. If you drive out, take the Moraga Road from Piedmont, or go out Thirteenth Ave. to the Moraga Road.

Acres-and-half homesites in Montclair are selling for \$50 down---1% each month. No interest or taxes until June 30, 1921. Surfaced roads, electricity and water are included in the purchase price. Half-acres range in price from \$500 to \$2000---less than half the price of a forty-foot lot in Piedmont or Claremont ---the adjoining properties.

MONTCLAIR

In this choice district where the building restrictions are from \$3500 to \$10,000, depending upon the location of the homesite, there is to be a business center—a model townsite. Twenty acres of this 2500-acre tract have been set aside for the Montclair townsite, where stores, theaters, the station and other conveniences for the residents will be gathered. Architectural sketches drawn for the townsite by Hamilton Murdock show a western Garden City, with all the buildings harmonizing in Spanish Colonial architecture. Business lots are selling from \$385 to \$985, and on the same easy terms of \$50 down ---1% monthly.

Montclair is 41 minutes from the Ferry Building by the San Francisco Sacramento Railway, which taps the property, and 11 minutes by automobile from Fourteenth and Broadway. It is on the Moraga Road, and the new Mountain Boulevard, the short cut from San Leandro to Claremont, passes through the new townsite.

Let us show you Montclair on the opening days, Saturday and Sunday

HIGHWAY BONDS TO BE SPENT AS BUDGET DIRECTS

SACRAMENTO, Oct. 29.—The State Highway Commission has announced that all money for roads under the various bond issues would be spent in accordance with the budget on which the bond issue was based.

One project will not be extended at the expense of another, it was said, and each community will be protected in the funds originally intended for its roads.

The commission issued the following statement: "Both the \$20,000,000 set aside in the \$10,000,000 bond issue for uncompleted roads in the first two bond issues and the \$20,000,000 set aside in accordance with the budget on which the bond issue was based.

"Adherence to the budget is necessary in the opinion of the commission, in order to prevent the money voted doing all the work that was mapped out for it to do."

"By adherence to the budget plan, each community will be protected in the funds originally intended for its roads."

Hallowe'en Frolics Numerous at Y. W. C. A.

Hallowe'en at the Y. W. C. A. is long and noisy this year. Beginning last Monday and ending next Friday, not less than thirteen parties are being given in the local association buildings. Club rooms, recreation rooms, gymnasium, the boarding rooms and the colored center are all filled with the mysterious bustle which accompanies the proper entertainment of ghosts, witches and other weird guests. Every one is an evening party and at each appropriate decorations and stunts help to make the season gay. Girls of all ages and of various interests are taking part, entertaining and being entertained. There are high school girls from the local schools, gymnasium classes and many others. Miss Elizabeth Mitchell, busy promoter of all these activities, reports that so far the parties have been exceptionally successful.

NO SPECIALS at Piggly Wiggly

It is not the policy of PIGGLY WIGGLY to inveigle customers by a special price on certain advertised brands and then to even up profits on other items.

At PIGGLY WIGGLY the profit on each article is fixed in proportion to its own price, so that as surely as the purchaser can believe he is paying only a nominal profit, he is equally sure that he is not paying along with his coffee the penalty for his neighbor's bargain in canned tomatoes.

Personal Selection---Is a Genuine Pleasure

At PIGGLY WIGGLY it means the saving of from 10c to 20c on every dollar spent.

A government bulletin several months ago stated that the yearly cost of retail delivery of food products in the United States was \$76,000,000. The money you pay extra for your groceries when they are delivered goes to make up this enormous sum.

At PIGGLY WIGGLY 50 people can be served in the same time as it takes to serve 10 people in any other store.

At PIGGLY WIGGLY you need not ask questions, as the goods are within arm's length; you can help yourself, and the price of each article is plainly indicated on a swinging price tag.

Moore, Thistle Clubs to Play Game Tomorrow

Owing to the fact that Eighth and Market streets are not available for Sunday next, and the other grounds will be occupied, the Thistle Club and Moore's game teams have arranged to play their game tomorrow afternoon at 2:30 p. m. at Twentieth and Mission streets grounds, San Francisco. These clubs have always been evenly matched, and it is doubtful if there are two clubs in this vicinity more capable of giving a display of the finer points of the game. Moore's have been slow in getting started, but they have made some changes for newcomers, and the Thistles will probably be favorites to win. Manager Elliott of Moore's is convinced he now has a winning combination, and has high hopes of putting over a victory.

An added attraction tomorrow will be the presence for the first time this season in the Moore lineup of Harrison, who, it will be remembered, was the bone of contention in the famous Moore appeal case, which last season disrupted the California Association. The shipbuilders will also probably introduce in goal Dwyer, a highly touted performer from the Los Angeles Athletic Club. The teams will likely line up as follows:

Johnson's Hitting Is Feature of Contest

The Melrose Athletic club had very little trouble in beating the Yankee All-Stars in the feature game of the season. The loss of the Yankees was a real game of ball for the first time in years, but the Yankees were unable to hold the hard hitting Melrose batters safely. The first score was 11 to 1. Johnson, third baseman for the Yankees, hit four times in the game, two of the drives going for triples. Ray pitched a fine game of ball against the Yankee All Stars. He allowed but four hits. The scores:

HARRY HOOPER IN LINE TO BOSS RED SOX.

BOSTON, Oct. 28.—The announcement that Harry Hooper had resigned as field manager of the Red Sox to become business manager of the New York Yankees came as a surprise to the supporters of the team. Speculation as to his successor ran a wide field. President H. H. Frazee, over the telephone from New York, said he had two or three men in mind. The club still carries on its policy of "Burr" Carrigan, manager of the world champions of 1915 and 1916, now a banker and promoter of Lewiston, Maine, whom Frazee has previously endeavored to bring back to the game. "Jack" Barry, who succeeded Carrigan as manager of the Red Sox, relinquishing his position to join the navy, is in the garage business at Worcester and is considered available. Harry Hooper, crack outfielder and captain of the present Red Sox team, is believed to be among those under consideration.

Alameda High and Berkeley to Clash At California Field

Coach Otto Ritter's Alameda high school American football team will set a road test when it trots out on California field at Berkeley tomorrow morning at 10 o'clock for a game with Berkeley high. The game is on the schedule of the C. I. F. and has created a lot of interest among the students of the two schools as well as others about the bay. Alameda is playing its first year in American, and other schools are expected to swing to the American style next season. In spite of the fact that Berkeley high has been at Berkeley for some time, Coach Ritter is predicting that the Berkeley boys will have all they can handle tomorrow morning. "We may be green at the game, but we will sure let them know we are out there," said the Alameda coach.

COMPETITION with the University of California and Mills College teams is included in the schedule of Stanford women's athletic contests with outside teams, announced here today. Hockey, basketball and tennis games and a swimming meet are included in the schedule. The season opens at Berkeley November 29 with hockey games between Stanford and University of California junior and senior teams. Mills College freshmen and sophomores hockey teams will meet the Cardinal girls on the local field December 1. Basketball games between the different classes of Stanford and Mills will be played on the Stanford courts February 25 with return games at Mills March 1. Tentative arrangements have been made for a swimming meet with Mills College in the Stanford pool May 7.

FITZSIMMONS vs. JACKSON. NEW YORK, Oct. 28.—Billie Fitzsimmons and Willie Jackson will feature tonight's boxing card at Madison Square garden. The fight will go four rounds to a decision. Billy Deane and Ralph Brady will furnish the semi-main event.

MY HEART HUSBAND

(Continued from Yesterday)

The man started perceptibly at the name she gave him, then he turned toward her angrily, his voice chipping off in large flakes.

"What's the matter with you? This is none of your affairs—and I've evidently got me mixed with somebody else," he finished lamely.

"In a pig's eye I have," Mrs. Ticer responded forcibly if inelegantly. "I couldn't mistake that ugly mug of yours even if I hadn't seen it in twenty years."

"The man smiled uneasily, and I noticed that his blustering air had dropped completely from him. 'I am sure you are mistaken,' he protested feebly. 'I never have seen you before.'"

"Oh, yes, you have!" Mrs. Ticer asserted. "You seen Jen Brown many a time in the old days. Would you like to have me remember where I seen you last?"

Whatever was hidden in Mrs. Ticer's seemingly innocent question of the man calling himself "Bridgeham," but whom she had addressed as "Jake Wiley," I, of course, had no idea. But that the covert reference had dynamite within it was readily given by the man's behavior. He tried to pretend that he had not heard her, and addressed himself to me in hurried, confused accents.

"There's no use my telling you anything before other people," he said. "But you'll be sorry if you don't hear what I've got to say soon. I'll see you again."

He turned and fairly bolted to his own car, swung it around, and passed us as if he were the driven instead of the driver. Mrs. Ticer, who had had her mouth open while he was talking, evidently waiting her chance to turn another trade loose upon him, waved her hand derisively as he passed, but he did not see her; for his head was bent over the steering wheel. As he disappeared around a curve she threw back her head and laughed the hearty, booming laugh which one would expect from her ample proportions.

AN INTERESTING PAST.

"Well," the monosyllabic as she uttered it was a word that didn't take long. I expected he'd show more fight than that. But he never did have half as much gumption as a lively bottlefish.

"I bent my wheel, first assuring myself that my hands and knees had ceased wobbling."

"He had his memory refreshed by your girlhood name," I ventured, as I threw my engine into high.

"Yes, his memory come back to him mighty sudden," Mrs. Ticer answered. "After thought it would, he's a slick one, is Jake. I hope he ain't makin' no trouble for you, child." Her voice was suddenly full of beautiful anxiety.

"Not for me," I meant to give her as clear an explanation as I could without betraying a confidence. It was due her. "But a—friend—of—our family—in times when I told him about it—my father caught him stealin' tools out o' the tool house. He'd had the reputation of bein' finger-fingered, and paw he'd always stood up for him. But when paw caught him red-handed he was so mad that he took Jake by the coat collar and booted him all the way to the gate."

HOW SHE KNEW.

"I remember I stood on the front porch and laughed while he done it."

White Rhino Caught for Oakland Museum

Specimens of the female and young of the nearly-extinct white rhinoceros have already been secured and a male specimen located for the Simson-Snow collection of African wild animals, according to word received today at the Oakland Public Museum by Curator John Rowley.

According to Rowley, there are probably not more than twenty-five remaining of the white rhinoceros remaining in Africa. Special permits had to be secured from the colonial government of British East Africa for the Oakland hunters to take them.

Honey Legal Tender in Deal at Orville

SUSANVILLE, Oct. 29.—Honey as a medium of exchange was used by E. A. Roberts, a resident of Honey Lake valley, Lassen county. Howard recently purchased a home in the suburbs of Orville, paying therefor in honey to the amount of five and a half tons. The agent who made the deal also accepted honey as legal tender.

Holland Beset With German Smuggling

THE HAGUE, Oct. 29.—The Dutch government has established a dead-line 200 yards wide along the German border in an effort to curb the smuggling which as assumed tremendous proportions, particularly in foodstuffs and rubber goods going into Germany. Soldiers are constantly on watch on the dead-line, but in spite of these measures the smuggling continues.

Dutch stores in all the frontier towns have been prohibited by government order from carrying more stock than is necessary to supply the Dutch villages and the holding of markets in the streets have been forbidden.

Common Sense

The first of the proposed measures on the November ballot is the "Alien Land Law." Before voting on it November 2, we ask you to consider these facts:

- 1 The population of California is 3,426,526 of which only 2.2 per cent are Japanese. In 1919 more white children were born in the state than the total of Japanese births for the ten years preceding.
- 2 California should not be placed in the position of 97.8 per cent of her population being in fear of 2.2 per cent.
- 3 In the last ten years our population increased 1,058,987. It was a 44.1 per cent increase, while that of the whole United States was only 14 per cent. Does that look like the state is being destroyed by its 2.2 per cent Japanese?
- 4 Our food supply is not keeping up with the increase of population. The first seven months of this year we did not produce enough to feed our own people; imports of food increased \$1,500,000,000.
- 5 Why expel the Japanese farmers who raised \$67,000,000 worth of food last year?
- 6 To persecute them off the land will make the shortage of farm labor more acute, put thousands of acres out of cultivation, reduce our food supply and inflict economic injury to the State.
- 7 Japanese labor on land is non-competitive. It gets the highest farm wages paid in the world. This initiative will drive it from non-competitive labor on land to competitive labor in the cities, where it consumes but no longer produces food. This change is equally injurious to city labor and to the consumers of food. This view was taken by the Labor Councils of Stockton and Sacramento in resolutions opposing "the removal of the Oriental from land to the industries."
- 8 Japan permits a corporation, though composed entirely of non-Japanese, to own in fee simple all the land it can buy. It also allows alien individuals to lease land of any kind for fifty years, and to acquire superficies for unlimited period. Yet Initiative No. 1 denies this reciprocal right to a handful of Japanese in California.
- 9 Foreigners in Japan by concessions in perpetuity own with improvements land worth many millions on which they do not even pay taxes. Yet Initiative No. 1 seeks to deny the industrious Japanese in California the human right of even leasing land for productive purposes.
- 10 Much has been said of the Japanese law which claims the allegiance of Japanese born in America. French law claims a child born abroad of French parents as a French citizen, subject, if a male, to military service the moment he enters French jurisdiction. Switzerland, Italy, Greece and Germany have similar laws.
- 11 Japan is more liberal than these countries, for she allows a child born abroad of Japanese parents to relinquish allegiance to Japan at any time before the age of 17.
- 12 Our National Government alone has power to settle all international questions. We look to Eastern Asia for expansion of our trade. These anti-Japanese movements, and the vituperation and abuse by agitators, and this initiative, do not represent Americanism. They disgrace and embarrass our National Government. Why do it, and injure ourselves at the same time?
- 13 Our Secretary of Commerce reports that in the eight months, ending August 31, this year, we sold our goods to Asia and Oceania as follows:

To Dutch East Indies	\$ 34,995,550	
To China	96,311,017	
To Australia	73,054,230	\$ 331,195,036
To British India	65,744,078	
To The Philippines	61,090,161	
To Japan		\$ 328,663,681

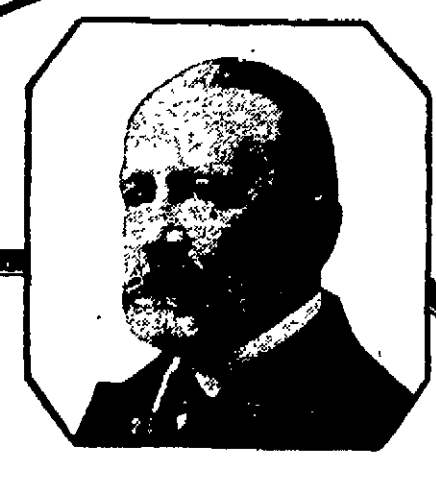

- 14 Japan bought of us within \$2,531,355 as much as all Asia and Oceania combined. Is it wise to alienate that commerce by mistreating the Japanese in California?
- 15 Vote NO on Initiative No. 1 on November 2.

ALIEN LAND LAW. Initiative		Yes	No	X
1 Act forbidding Japanese; Chinese & certain other aliens to lease land, etc.				

His fight is Your fight

It's up to you, Voters of California, to carry on to the finish your fight to keep the State white.

You can't turn back Japanese immigration if you turn your back on James D. Phelan. Fail to re-elect him, and the country will take it as a repudiation of California's demand for exclusion.

Washington knows Senator Phelan is a qualified spokesman for California's security. You can't convince Congress of California's peril unless you stand by the recognized champion of your cause. Senator James D. Phelan has the attention of Congress NOW. Send him back to Washington. Congress will help him finish the fight to keep the State white—if you do YOUR PART.

Keep California White

Re-elect JAMES D. PHELAN

U.S. Senator

BOLSHEVIST RUSSIA AND SINGLE TAXERS

Government confiscation of land is one of the dreams of the Reds of Russia.

From 1912 on, Single Taxers have sought to bring about the same result in California.

They propose to take ALL the income from land, leaving the owner an empty husk—the title.

Sane Americanism has turned down this scheme, for single tax is not in force anywhere in the United States, although repeated efforts have been made in a dozen States in the last twenty years to foist it on the people.

This proposal has been defeated four times in California. It is vital to every land owner to defeat it again this year.

Also, this year, by voting for Amendment 4, you have a chance to keep the measure off the ballot in ensuing years unless 25 per cent of the voters want it there.

Chiropractic Bill No. 5

☐ YES ☐ X

THE CHIROPRACTIC BILL is an INITIATIVE ACT of the citizens of California. 88,000 of the Voters of the State have signed the Petition to place it upon the Ballot.

It creates a Board of Chiropractic Examiners appointed by the Governor and "paid by receipts under the Act," and adds no expense whatever to the tax-payers.

This Bill provides that Chiropractors licensed thereunder shall be amenable to the State Board of Health, and must obey all of its regulations pertaining to Public Health Measures, Quarantine and control of contagious diseases. This law will not interfere with or restrict any other method of healing.

Twenty six States, containing 58% of the population of the United States have passed similar laws, none having been repealed or amended. In each of these States the Chiropractors have had to fight the "Medical Trust" just as we are compelled to do here in California.

We are here because of the great need of the sick and afflicted. Consider the report of the United States Government after its investigation of the results of the "FLU" epidemic. This report shows that the Medical Doctors lost 180 out of each 1000 case of "FLU" they were called to treat, while the Chiropractors lost only one case out of each 1000 handled.

The "Joker" in the Medical law gives the Medical Board the option to approve or disapprove Chiropractic Colleges, and the California State Medical Board has refused to approve any Chiropractic College, or admit any of their graduates to examination. We have hundreds of letters in proof of this.

This Act is not promoted by Schools or groups of any kind, but by the Chiropractors of California through their State Society of over 800 members, and 88,000 voters who have been benefited by Chiropractic.

---Dolls

Repair Shop, Osgoods'—Basement

You may have a doll that is broken and can be fixed almost like new. Bring them in to our shop; it won't cost much. Bring them as early as possible, before the rush.

See the Oriental Wonder Dolls—and the Chinkie Dolls

These dolls attract lots of attention. They are the cutest things children just love them. Even the grown-ups notice that our assortment of dolls is larger than ever this year. See them in the Doll Shop, basement.

Christmas Novelties and Staples

Early shopping for Christmas is always advisable; given you a better selection to choose from, and then get the worry over with.

A small deposit will hold any article you select for a Christmas gift.

---Kodaks

Always an appropriate gift and one any member of the family would like, but for young girls and boys in particular it's hard to beat a Kodak.

Contractors' Defense Styled 'Mere Quibble'

SAN FRANCISCO, Oct. 29.—Char-

acterizing the technical objections

brought against the indictment of

various local contractors for the al-

leged "fixing of bids" as "mere quib-

ble," Assistant District Attorney L.

St. Golden bitterly scored the pro-

visions of the demurrer brought in

Judge Ward's court by the defend-

ants.

The contractors formed a com-

bination for the purpose of defraud-

ing the public, Golden maintained,

through the holding of bids to a high

figure. Normal bids were "squash-

murder to the action of the county

and it is alleged, and the work and

finally obtained by some member of

the combination. To the terms of Healy, William S. Scott, Frank

the indictment, the accused brought on John R. A. Farrar and Frank

technical legal objections in a de-

Mordcaai.

BILLION DOLLARS IN STOCK ISSUED FOR UTILITY WORK
During the fiscal year ending June 30, 1920, the Railroad Commission passed the billion dollar mark in securities for the purpose of which California's utilities sought authorization. According to the Commission's report just completed and forwarded to Governor Wm. D. Stephens, the applications of utilities for authority to issue bonds, notes or other securities of "debentures" have reached a total of \$1,142,000,000. The period covered by the report runs from March 23, 1919, the effective date of the Public Utilities Act, to June 30 of this year.

EXTRA EDITIONS
WILL BE ISSUED
TO GIVE FIGURES

Photo shows tremendous sweep of territory to the south covered by the mammoth bulletin screen on the Kahn building. This picture was made at the corner of Thirteenth and Washington streets, two blocks from the bulletin board. The giant letters can be read plainly from that spot.

From Portland to Pensacola, from Miami to Mohonk next Tuesday evening will be gathered, before a thousand cypole-eyed bulletin screens, a thousand jostling, jostling, jubilant throngs.

They will be the citizens of the nation learning, colorfully, how, individually, they voted that day.

The interest in election night has been growing keener each day, for election night itself, apart from the spirit of the election, has become a national institution.

And in every community people will have turned naturally in great numbers to one trusted and efficient source of information in which experience has taught that most confidence may be placed.

READY FOR EMERGENCY
Realizing that confidence, and in its continuous effort for efficiency, accuracy and completeness, the TRIBUNE will be prepared on Tuesday night to render to the whole East-bay region an election intelligence service never before equaled in California.

Coupled with that intelligence service, which will include as a part of its plan three centers where bulletins will be projected upon giant screens by powerful stereopticons and fifteen special bulletin boards, there will be a news gathering and compiling service more extensive than has been operated in the bay area for any previous election.

At the center of this system will be an extensive organization in the TRIBUNE building, the whole energy of which will be devoted to assembling the city, county, state and national count. This organization will triple and quadruple the usual editorial staff, calling in many experts to augment the trained men and women who will direct.

From the TRIBUNE will stretch out more than 200 telegraphic and telephonic wire strands, the arms which will touch each community and actuate the agencies which have been established as enunciators.

GREAT DOWNTOWN SCREEN
Of these stations, the biggest will be located in the Oakland Plaza, where a stereopticon, pointing through the night a finger of light bigger than was ever projected by such machine in Oakland before, will trace out upon a screen, cover-

ing 225 square feet of the Kahn building, a huge circle of white upon which will be transcribed the figures counted out by the clerks in the polling booths.

A second screen, 20 feet square, will stretch itself before the eyes of Berkeleyites from the front of the Bowman Drug Company building at Center and Shattuck and a third will gleam white in the darkness at Park and Central under the beam of the projection machine.

Service to these machines will be practically instantaneous. In the offices behind each projector, headpiece adjusted, a telephone operator will sit in touch with the multiple announcing apparatus at the TRIBUNE.

The Oakland TRIBUNE will advise the people of the Eastbay of the result of the election in four ways:

- 1—By the gigantic downtown bulletin board, screen in Berkeley and Alameda and bulletins at other branches.
- 2—By a signal system which is now being perfected to inform people in outlying places.
- 3—By hot-off-the-press extras.
- 4—By telephone information service.

TRIBUNE As the receiving bureau there takes in new figures and the compiling bureau foots new totals, spoken word or type will pass, a ready pen will have lettered new

slide plate and the story will be read outside.

In addition to this a telegraphic loop and an operator will be placed beside the projector in the lav of offices of Rose and Silver, where the results of the TRIBUNE's great wire service will be constantly apparent. National totals of the United Press and the International News Service will be steadily available for the stereopticon there, as they also will be in the TRIBUNE office, from which point they will be flashed by telephone to other agencies. The Oakland TRIBUNE will be the only newspaper published in the Great Eastbay which will print Associated Press despatches in its election extras.

FACILITIES FOR
GETTING RETURNS
BEST ON COAST

At all TRIBUNE bulletin agencies, bulletin windows and boards with uniformly prepared sheets, legible at long distances will be found. These operatives will write and post the results as the returns come in by wire Tuesday night.

Richmond, San Leandro, Hayward, Alameda, Union City, Fremont, Newark, Castroville, Pittsburg, Antioch, Benicia, Pleasanton, Niles, Decoto and Petaluma in this manner will be kept informed with the same speed and facility that will be found in the Oakland Plaza or the TRIBUNE office itself.

Nor must the extra edition service be overlooked. On election nights, naturally, the aim is to get the big facts over first. Stereopticons and bulletins will do these things. But they will not provide comparative figures, written digests, analysis or permanent record of what is going forward. To supplement the bulletins, therefore, the TRIBUNE at intervals will pour out new editions, recording the progress of the election, announcing the latest developments and containing any other pertinent news which may develop as the night wears on. The TRIBUNE will also publish extra editions when there was no news really warranting and to put into them enough to warrant their publication when they do appear as they are confident to insure that they will be valuable on election night.

IN THE FOREFRONT

With all these arrangements the TRIBUNE will stand in the front rank of metropolitan journals ready to give service Tuesday night, while the jostling, jostling, jubilant throngs gather before a thousand bulletin boards Tuesday night to learned how they voted that day.

Beside all this, operators at the TRIBUNE will sit prepared to answer questions they will transmit to gatherings in halls and theaters new figures and will carry out other details in the plan of the TRIBUNE to cover the whole of Alameda and Contra Costa counties "like a blanket"—a plan which, Tuesday night, will have proven the TRIBUNE in the very front rank of big American metropolitan dailies.

NAVY BAND TO
HEAD PARADE
FOR MEMORIAL

In support of the \$225,000 war memorial for Oakland, the famous United States navy band of 150 pieces from Goat Island will lead a parade through the streets of Oakland tomorrow afternoon. The route of march will be through the principal streets, terminating at the city hall plaza where a concert will be rendered.

During the parade and concert ex-soldiers and sailors will hand out cards reminding the voters of the band issue, and asking their support.

Sheriff Barnett yesterday lent his support to the proposition when he forwarded to the committee a substantial check to help cover expenses. With the check he sent the following endorsement of the memorial:

"San Francisco has given \$2,000,000 for a war memorial, and it certainly would be giving Oakland a black eye if we refuse our former soldiers a \$225,000 band organ. I think our voters will take this opportunity to express their appreciation of the services their soldiers rendered during the war."

DEN OF THIEVES

State Attorney McClay Hoyne has declared that the police department of Chicago was a den of thieves. In fact, the police department has come into national prominence because of its grafting, fees and special interests connections.

Oakland's non-removal rule was patterned after Chicago's non-removal rule. The experience in Oakland indicates that if the Federal Civil Service is not adopted in Oakland we may soon expect to reap some of the shameful results of the Chicago non-removal rule.

Restore to department heads in Oakland the power to discipline city employees.

Vote "Yes" on number 2 on the municipal ballot.

WATSON IS STILL
POLICE SUSPECT IN
CARLSON MURDER

PIEDMONT, Oct. 29.—Chief of Police B. F. Becker and Detective Sergeant Fred Heere spent today at the Quail club with Dr. J. L. Stanley, prison doctor, after which they submitted James G. (Bluebeard) Watson to an examination concerning his whereabouts the night of the murder of Ella Carlson, 34, who was found strangled to death in a vacant lot at Lafayette and Crocker avenues the morning of March 15.

Since the receipt of a letter from a Chicago woman ten days ago who says she witnessed the murder and who furnishes a description of the murderer which tallies closely with that of Watson the man sent to prison for life from Los Angeles following his extraordinary confession to killing nine wives, the Piedmont department has bent every effort in investigating Watson's possible connection with the case.

"We always felt that Watson was the man because the peculiar type of degeneracy involved in the Ella Carlson murder is a very uncommon thing," said Chief Becker today. "We traced Watson to this approximate locality at the time of the murder. That in itself made it appear that Watson was probably the murderer," said Chief Becker today. "When we received the letter from Chicago which describes Watson so accurately we became convinced that it is the man."
